

KENSINGTON NATURE CENTER PROGRAM OFFERINGS

Kensington Nature Center, near Milford/Brighton, has programs available throughout the year. These include guided programs at the Nature Center as well as visits to schools.

Indoor Nature Talks and **Outdoor Nature Walks** are available from Tuesday through Friday. Each program is normally one hour in length. Usually, the theme is seasonal, but you are welcome to request any nature-related topic. Each program is age-appropriate. We prefer group size to be between 10 and 35 participants. We can be flexible as needed. Appointments for the entire school year open on August 15th.

Nature Center Outreach Programs to area schools. We visit schools from November until mid-April. Traditional offerings include narrated **Slide Programs** for grades 3 - and-up, we also offer **Hands-on Classroom Programs**, intended for individual classes. A variety of topics incorporate both natural and human history. **MEAP-related** benchmarks are indicated by each program description. Information/registration materials are mailed to schools during the month of September.

Interpretive Naturalists from Kensington visit schools in all of Livingston and Washtenaw counties and parts of Oakland and Wayne (we share the metropolitan area with other Metropark interpretive centers).

Applications for school visits can be obtained by calling, e-mailing, or faxing us.

Phone: 1-800-477-3178 (ask for Nature Center) or 1-248-685-0603 (direct line to Nature Center).

E-mail: bob.hotaling@metroparks.com

Fax: 1-248-684-5836 (request Nature Center)

We hope to hear from you!
