HURON-CLINTON METROPOLITAN AUTHORITY, MICHIGAN

COMPREHENSIVE ANNUAL FINANCIAL REPORT

FOR THE YEAR ENDED DECEMBER 31, 2010

SUBMITTED TO THE HURON-CLINTON METROPOLITAN AUTHORITY BOARD OF COMMISSIONERS

Harry E. Lester – Chairman – Wayne County
Peter S. Walters – Vice Chairman – Oakland County
Robert W. Marans – Treasurer – Washtenaw County
Anthony V. Marrocco – Secretary – Macomb County
Warren C. Evans – Governor Appointee
John C. Hertel – Governor Appointee
John E. La Belle – Livingston County

Prepared by the Huron-Clinton Metropolitan Authority Controller's Department

Huron-Clinton Metropolitan Authority, Michigan Comprehensive Annual Financial Report For the Year Ended December 31, 2010

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Huron-Clinton Metropolitan Authority, Michigan

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2009

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

OF THE LAND CANADA CORPORATION SEAL CHICAGO

HURON – CLINTON METROPOLITAN AUTHORITY

COMMISSIONERS

HARRY E. LESTER, Chairman
PETER S. WALTERS, Vice Chairman
ROBERT W. MARANS, Treasurer
ANTHONY V. MARROCCO, Secretary
WARREN C. EVANS
JOHN C. HERTEL
JOHN E. LA BELLE

May 4, 2011

To the Board of Commissioners, Director and Citizens of the Huron-Clinton Metropolitan Authority Park District:

State law requires that all local governmental units, including authorities such as the Huron-Clinton Metropolitan Authority, publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Huron-Clinton Metropolitan Authority for the fiscal year ended December 31, 2010. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with management.

The financial reporting entity of the Huron-Clinton Metropolitan Authority includes all funds of the Huron-Clinton Metropolitan Authority. The Authority is a special district form of government operating independently of all other governmental agencies. It provides a full range of recreational activities in the five-county region surrounding the city of Detroit.

GOVERNMENTAL STRUCTURE, LOCAL ECONOMIC CONDITION AND OUTLOOK

The Huron-Clinton Metropolitan Authority was sanctioned by Public Act 147 of Public Acts 1939. This Act provided for the incorporation of the Huron-Clinton Metropolitan Authority to permit the counties of Livingston, Macomb, Oakland, Washtenaw and Wayne to join in a metropolitan district for planning, promoting and/or acquiring, constructing, owning, developing, maintaining and operating, either within or without their limits, parks, connecting drives and/or limited access highways; and to provide for the assessment, levy and collection of property taxes on both real and personal properties located within its boundaries. A referendum was held on November 5, 1940 on the proposed Huron-Clinton Metropolitan Authority. The citizens of the five-county district approved the creation of the Huron-Clinton Metropolitan Authority.

The governing body of the Huron-Clinton Metropolitan Authority is a seven member Board of Commissioners. Two Commissioners, who serve as representatives at large, are appointed by the Governor of Michigan and serve four-year terms. Each of the five member counties, through their respective Board of Commissioners, appoints a Commissioner to serve a six-year staggered term. Public meetings of the Board of Commissioners are held on the second Thursday of each month. The Board of Commissioners is responsible, among other things, for setting policy, adopting the budget, setting fees, approving contracts, land acquisition and expenditures, planning of new parks and facilities and appointing four staff officers – Director, Deputy Director, Executive Secretary and Controller.

The Director is responsible for carrying out the policies of the Board of Commissioners, for overseeing the day-to-day operations of the park system, hiring all full time employees and approving all purchase commitments of the Authority. The Deputy Director oversees all park operations/activities. The Executive Secretary keeps minutes of all Board of Commissioner meetings, is the official custodian of all records of the Authority, coordinates the recording of all property owned by the Authority and certifies all payment vouchers prior to approval by the Board of Commissioners. The Controller is responsible for maintaining all financial accounting records of the Authority, collecting all revenues due the Authority, investing all Authority funds, issuing payment vouchers for goods, services and payrolls, maintaining property/casualty insurances and serves as the Pension Plan Trustee and Retiree Health Trust Plan Administrator.

Named after the two longest rivers within its boundaries, the Authority's main endeavor is to provide a variety of recreational opportunities through the development of natural resources along the Huron and Clinton Rivers for the benefit of the 4.4 million citizens of the five-county park district located in southeastern Michigan. Since its inception, the Authority has created thirteen Metroparks covering over 24,000 acres within the 1,600 square mile watershed area of the Huron and Clinton Rivers. These Metroparks have been developed on the best natural resources available, considering population trends and changing needs within the district with a minimum disruption of existing land use. The Authority is a dynamic and changing organization striving to provide new facilities and better service, but the basic philosophy of utilizing the best natural resource areas possible to provide a broad range of regional outdoor activities has not changed. This was the widely understood reason and purpose of establishing the organization and has been carefully followed by its Board of Commissioners throughout its history.

The characteristics of the Metroparks are different from recreation supplied by most other units of government or by the private sector. Generally, Metroparks are fairly large in size and offer a blend of natural resources such as lake, river, woods or wildlife area with constructed facilities that provide for more intensive recreational pursuits such as swimming, golfing, bicycling, crosscountry skiing or other outdoor recreation. These Metroparks are within an hour's drive for most of the residents of the region and are considered "day use" parks.

The Metroparks range in size from 53 acres at Delhi Metropark to over 4,400 acres at Stony Creek Metropark. The larger Metroparks are designed to accommodate crowds of 35,000 or more on peak use days. In 2010, the Metropark system provided recreation for 9.2 million park visitors.

The Authority's centralized Administrative Office coordinates the development and operation of all thirteen Metroparks. The following departments are housed at the Administrative Office: (1) Executive; (2) Controller; (3) Engineering; (4) Planning; (5) Human Resources; (6) Graphic Design; (7) Communications/Marketing; (8) Purchasing; (9) Information Systems; (10) Community Relations; (11) Police; and (12) Interpretive Services.

The day-to-day administration, operation and maintenance of each Metropark is coordinated through six park offices. These offices oversee all on-site park activities, operations and maintenance of buildings, roads and grounds.

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the local economic environment in which the Huron-Clinton Metropolitan Authority operates.

Following the longest and deepest contraction of the U.S. economy in the post-war era, a moderate recovery began to take hold around the middle of 2009. It appeared that the multitude of responses to the 2007 to 2009 global financial crisis were finally taking hold and that the worst of the damage was past. The headwinds of the economic storm even started to subside in Michigan, which has been stuck in a decade-long recession. Michigan's prolonged economic distress was compounded by the aftershocks of the auto industry's restructuring. The bankruptcy of two of southeast Michigan's largest employers, General Motors and Chrysler, adversely affected thousands of the Authority's taxpayers, contributing greatly to higher unemployment rates and a significant increase in home foreclosures.

Coming into 2010 there was concern that the economy might slip into a double dip recession. There were reservations that, once the Federal Reserve began withdrawing various stimulus programs in mid-2010, the private sector would not be able to sustain the recovery. Fortunately, the recovery continued throughout 2010. It was slow, but a recovery nonetheless. Persistent high unemployment in Michigan, which improved from 14.5 percent to 11.7 percent at the end of 2010, tight credit following the financial crisis and subdued consumer spending continued to be a drag on the Michigan economy.

Michigan's economy still has a heavy exposure to durable goods manufacturing. The restructuring of Michigan-based auto companies throughout 2010 set in motion permanent cuts in employment and production processes. However, these painful actions have allowed the auto companies to survive. After losing market share for most of the decade, the Detroit auto manufacturers have stabilized their market share in 2010. With the restructuring and lower capacity and unit costs, production now more closely parallels market share. This will help stabilize Michigan's economy.

A second key economic issue for the Metropark system is the adverse impact the negative real estate market has had on property values in southeast Michigan. The foreclosure crisis has been compounded in southeast Michigan because of the magnitude of job losses, principally from the auto sector. The foreclosures created a large inventory of homes for sale, which got worse with a decrease in demand for real estate due to rising unemployment. With the supply of homes on the market vastly exceeding demand, there has been a dramatic drop in real estate values. In Michigan there is a two year lag between real estate sales and tax assessment values. Huron-Clinton Metropolitan Authority is not immune from the adverse impact of the negative real estate market. The drop in property values in late 2007 and the first three quarters of 2008 generated a \$1.4 million drop in Authority tax revenues in 2010. Tax revenue declines will continue until the real estate market stabilizes in southeast Michigan.

With the Federal Reserve's second round of quantitative easing scheduled to end in mid-2011, economic growth will have to be led by the private sector. This most likely will mean a very slow recovery, with vulnerability to negative economic news. In Michigan, it appears the economy will continue to struggle, as any growth in the private sector may be offset by public sector contraction as governmental agencies start to address deficits.

Given all these variables in our region, it is felt that southeast Michigan will remain a busy recreational playground due to the economy, natural features and water resources. The Metropark system will continue to play an important role in providing recreational opportunities for our residents and enhancing the overall quality of life. It is expected that residents will seek quality recreational opportunities closer to home at their 13 Metroparks.

A recent report by the Southeast Michigan Council of Governments (SEMCOG), the regional planning agency, indicates that there will be a major shift in the age mix of the population served by the Metropark system. It is predicted that over one-third of the population in southeast Michigan will be over 55 by year 2030. The current 2010 United States Census Bureau counts show that the five-county population stands at 4,390,000 residents. The Authority hopes to serve more of these residents as they age.

MAJOR INITIATIVES

The Authority's staff, following directions from the Board of Commissioners and the Authority's Director, has been involved in a variety of capital projects throughout the year. These projects reflect the Authority's ongoing commitment to providing quality public recreational facilities and services in a well-maintained and safe environment to the citizens of southeast Michigan. Many of these projects relate to the Authority's emphasis of the Five-Year Plan on replacing/renovating worn out, outdated recreation facilities. The major activities and accomplishments during 2010 included:

- 1. The complete reconstruction of the South Marina Complex at Metro Beach Metropark was started in 2009 and completed in 2010. 2010 expenditures totaled \$521,000. The total project cost was \$3,171,000. This project reconstructed 48 boat wells, seawall and walkways, upgraded electrical pedestals, replaced the shower/restroom facility, water system and replaced the harbormaster booth. This project was funded 50 percent from a grant from the Michigan Department of Natural Resources-Waterways Division.
- 2. The demolition and replacement of the Martindale Beach Bathhouse and Food Concession Buildings and plaza area at Kensington Metropark started in 2009 and was completed in 2010, incurring \$382,000 of expenses. Total project cost was \$2,945,000.
- 3. The replacement of the failed Willow Metropark Pool and Deck began in June 2009 and was completed in 2010. The new zero depth, children's spray area and waterslide complex incurred \$361,000 of expenses during 2010. The total cost of this new aquatic facility was \$1,289,000.
- 4. At Indian Springs Metropark's Environmental Discovery Center the fabrication and installation of new interpretive exhibits was completed at a cost of \$134,000.
- 5. Above ground fuel storage tanks were installed in the Service Areas at Metro Beach and Kensington Metroparks at a cost of \$232,000.
- 6. Prefabricated comfort stations were installed at the Lake Erie Metropark Golf Course for \$299,000.

- 7. The Children's Play Area at Lake Erie Metropark was completely replaced with new play structures for \$335,000.
- 8. Metropark roadways were rebuilt at Kensington, Lower Huron and Stony Creek Metroparks to the tune of \$616,000.
 - 9. Tree plantings took place in nine Metroparks, where \$137,000 was expended.
- 10. In total, the Authority invested in park facilities to the extent of nearly \$3.9 million, as work was done on 46 individual projects. These capitalized projects will help ensure that Metropark facility offerings to our public are in good working order and relevant to today's recreational interests. The vast majority of the 2010 capital improvement expenditures continue to relate to 3-R's-type projects (repair, renovate and replace). Due to the age of the Metropark facilities, it is essential that these types of projects continue to be the primary focus of capital improvement expenditures.
- 11. The Planning and Engineering Departments worked on many other projects that will be let for construction in 2011. The main "in progress" improvement projects are:
 - a. Hike/Bike Trail Connector at Kensington Metropark;
 - b. Golf Starter Building replacement at Kensington Metropark;
 - c. Parking lot reconstruction at Delhi Metropark;
 - d. Replacement of boat launch piers at Stony Creek and Kensington Metroparks.
- 12. During 2010, a total of \$2.0 million was spent equipping the Metropark system. Heavy equipment purchases accounted for \$1.2 million of expenditures, while auto and truck acquisitions totaled \$0.65 million.
- 13. Under the Authority's Capital Projects Fund–Supplemental Major Maintenance, preliminary engineering studies were initiated for: (1) decommissioning and replacement of the park sewage treatment plant at Kensington Metropark and (2) replacement of main park water/sewer lines at Stony Creek Metropark. The engineering consulting work on these two projects incurred \$190,000 of expenditures.
- 14. Major repairs to Authority buildings, roadways, hike/bike trails, irrigation systems, bridges and walkways ran \$1,132,000 during 2010 for 32 projects.
- 15. The Authority established the Retiree Health Care Plan and Trust effective October 1, 2005. This Plan and Trust was created under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999 and constitutes a governmental trust pursuant to Section 115 of the Internal Revenue Code of 1986. The Plan operates on a September 30th fiscal year end. The Authority transferred \$3,436,000 from the General Fund to the Retiree Health Trust during the Plan year ended September 30, 2010. This contribution represents the first year the Authority fully funded the Annual Required Contribution (ARC). The Plan and Trust was established for the exclusive purpose of enabling the Authority to pre-fund retiree health care benefits for eligible retirees and spouses. The Trust expended \$1,106,000 for retiree health and dental benefits for the Plan Year ended September 30, 2010.

16. Finally, but certainly not least, the direct operation and maintenance of the Authority's 13 Metroparks were funded at a level of service that continued to offer the public quality recreational experiences in well-maintained and safe environments. A total of \$32.1 million was expended on providing park maintenance and recreational services to 9.2 million park visitors in 2010.

FINANCIAL INFORMATION

Management of the Authority is responsible for establishing and maintaining internal controls designed to ensure that the assets of the Authority are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

FEDERAL FINANCIAL ASSISTANCE

The Authority did not receive any Federal financial assistance during 2010 that required the independent auditor to issue a Single Audit Report.

BUDGET

The annual budget serves as the foundation for the Huron-Clinton Metropolitan Authority's financial planning and control. The Authority employs a Five-Year Plan for long-range financial planning, which provides general guidance for each year's annual budget. 2010 represented the third year of the Authority's Five-Year Plan covering the years 2008 to 2012. In July 2009, the Board of Commissioners approved a revision to the Authority's Five-Year Plan for years 2010 to 2012, with further revisions made in May 2010. The annual budget process is multi-faceted, involving all units of the Authority. The Authority's Planning and Engineering Departments, in conjunction with park operating units, develop capital improvement and major maintenance project listings that are costed out by the end of September. These project listings are reviewed and finalized by mid-October. After a complete inspection of Authority equipment during September, the equipment budget is developed. Equipment budget requests are reviewed and finalized by the end of October. All park operating units of the Huron-Clinton Metropolitan Authority are required to submit park operation budget requests to the Controller's office near the end of October. The Controller utilizes these requests, along with capital budget requests, as the starting point for developing a proposed General Fund budget. The Controller conducts budget review meetings and presents the proposed budget to the Board of Commissioners at the December Board meeting. A public hearing on the proposed budget is conducted prior to the December Board meeting. The appropriated budget is a line item budget prepared by fund, category (i.e., capital improvements, park operations), department/park (i.e., Metro Beach, Kensington), sub-department/activity (i.e., golf course, regulatory) and object (i.e., full time wages, utilities). The Director is authorized to make budgetary transfers between line item appropriations. All budgetary appropriation transfers by category are approved by the Board of Commissioners on a quarterly basis. Budget-to-actual comparisons are provided in this report for the General Fund. The Authority maintains an encumbrance accounting system and a work order system for capital construction type projects to assist in maintaining budgetary control.

The Board of Commissioners has also established a Capital Projects Fund called the Supplemental Major Maintenance Fund to account for all oil/gas royalty revenues. These revenues are restricted for accomplishing large infrastructure repairs (over \$200,000) within the Metropark system. Infrastructure repair projects are evaluated on a project-by-project basis and on the basis of need. These projects require Board of Commission approval.

LONG-TERM FINANCIAL PLANNING

The Huron-Clinton Metropolitan Authority employs a Five-Year Regional Recreation Plan to provide long term recreational and financial planning for the Metropark system. In 2007, a new Five-Year Plan covering the years 2008 to 2012 was approved by the Board of Commissioners. The development of the Five-Year Plan is a planning process that is a joint effort involving the general public, park staff, Administrative Office staff, Planning staff, Engineering staff and the Board of Commissioners. The cornerstone of this Five-Year Plan is a Park User/Non-User Survey of the five-county area, which was conducted by Market Strategies, Inc. The Authority's Administrative Staff developed a preliminary Five-Year Plan, which was reviewed at a special workshop meeting held by the Board of Commissioners. After much discussion and further meetings, the financial projection section of the Authority's Five-Year Plan was approved in May 2007. Due to the large amount of aging infrastructure within the Metropark system, the new Five-Year Plan continues to emphasize renovation/redevelopment/restoration type projects rather than new park developments. Eighty percent of the anticipated capital improvement funds for the next five years will be allocated to these types of projects.

Due to the economic downturn and the impact on residential and commercial/industrial real estate values in southeast Michigan for Authority tax revenues for 2010 to 2012, the Authority's Board of Commissioners and staff revised the May 2007 approved Five-Year Plan. In order to position the Authority to be as recession resistant as possible, the Board of Commissioners, in July 2009, approved a "revised" Five-Year Plan covering 2010 to 2012. The "revised" Five-Year Plan was further updated in May 2010 as a result of 2011 tax revenue declines being greater than forecasted in the July 2009 revision. The general intent of the Authority's updated revised Five-Year Plan is to attempt to engineer a "soft" landing during this economic downturn. The revised Five-Year Plan: (1) defers a number of planned capital improvement projects and (2) builds up the Authority's Reserve for Future Contingencies account in an attempt to offset anticipated material tax revenue declines in 2011 and 2012. The revised Five-Year Plan represents a balanced plan that attempts to address these issues:

- ♦ Maintenance of present high standards of maintenance and service levels for existing park operations.
- ◆ Continuation of funding for major maintenance projects at an average of \$1.15 million annually.
- Maintenance of a functional fleet of equipment plus equipping new facilities.

- ◆ Funding the replacement of major facilities at: (1) Kensington Golf Starter Building, (2) Stony Creek Eastwood Beach Play Area, (3) Huron Meadows Park Service Area Complex, and (4) Stony Creek Boat Rental Facility.
- Funding the redevelopment of: (1) Metro Beach's East Boardwalk area to include a new Comfort Station/Picnic Shelter, (2) Kensington's Maple Beach Bathhouse/Food Service areas, and (3) Stony Creek's Eastwood Beach Buildings.
- Funding for the continuation of reconstructing/resurfacing of Authority roads, parking lots and hike/bike trails.
- Funding the Authority's portion of a hike/bike trail link from Hudson Mills to the Village of Dexter.
- ♦ Maintaining contributions to the Authority's Retiree Health Care Trust Fund and Pension Trust Fund.

The updated revised Five-Year Plan will provide general guidance for the development of the Authority's annual budgets each year. Adjustments are made to the Five-Year Plan as dictated by ongoing economic conditions.

GENERAL FUND BALANCE

In keeping with fiscally responsible budgeting practices, the Authority actively funds a Reserve for Future Contingency account to set aside funds to meet unanticipated/underbudgeted expenditures, emergencies and/or revenue shortfalls. The Authority's goal is to maintain this account at 5 percent of the general fund budget appropriations as a minimum. Due to current economic conditions and the significant property tax declines, the Authority's Board of Commissioners has approved a systematic build-up of the Reserve account in anticipation of future tax revenue declines.

At the end of 2010, these unreserved funds which are undesignated totaled \$14.3 million, an increase of \$4.5 million from 2009's level. The Authority's adopted 2011 Budget will retain all of these funds (\$14.3 million) in the Authority's Reserve for Future Contingencies account.

CAPITAL PROJECTS FUND

The Authority utilizes a Capital Projects Fund to record supplemental major maintenance projects that are non-recurring expenditures to repair/replace existing Metropark infrastructure. As designated by the Authority's Board of Commissioners, oil/gas royalty revenues are earmarked to fund these large projects.

During 2010, \$436,000 of royalty payments were received, with generated investment income totaling \$90,000. The major projects in 2010 were the preliminary engineering studies for: (1) decommissioning and replacement of the park sewage treatment plant at Kensington Metropark, and (2) replacement of main park water/sewer lines at Stony Creek Metropark.

At the end of 2010, the unappropriated balance of the Supplemental Major Maintenance Reserve stood at \$6.3 million.

FIDUCIARY FUNDS

The Authority maintains a single employer, defined benefit pension plan, which is reported in the Pension Trust Fund based on its September 30 fiscal year end. An actuarial study determines the funding required by the Authority to meet its future benefit obligations. For the Plan year ended September 30, 2010 the Authority's required contribution was \$2,024,612. In the most recent Actuarial Valuation Report for the September 30, 2010 Plan year, the total estimated actuarial accrued liability was \$58,938,000. Total Plan assets at this time were \$40,755,000. One method of assessing the financial strength of a pension plan is to determine the percentage of liabilities that has been funded. This percentage for the Authority's Plan at September 30, 2010 was 69.2 percent, compared to 70.8 percent one year earlier.

The Authority established a Retiree Health Care Plan and Trust effective October 1, 2005. This Plan and Trust constitutes a governmental trust pursuant to Section 115 of the Internal Revenue Code of 1986. It was created under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999. The Plan and Trust was established to allow for the Authority's funding of eligible retiree and spouse health care benefits. An actuarial valuation was performed as of October 1, 2009 with the total estimated actuarial accrued liability of the Authority postemployment health benefits established as \$40.7 million. At the end of the Plan's fifth fiscal year, the value of Trust assets totaled \$10.3 million. This creates an unfunded actuarial accrued liability of \$30.4 million.

DEBT

The Authority has not issued any bonded debt. The Authority's Enabling Act restricted debt issues to only revenue bonds. Over the years, the Authority has never felt it necessary to issue revenue bonds as a means of financing recreational facilities. Rather, the Authority has always operated on a "pay-as-you-go" basis, meaning no Authority taxes or revenues have been utilized to service debt issues.

OTHER INFORMATION

Independent Audit

State statute requires an annual audit by an independent certified public accountant. The accounting firm of Rehmann Robson was selected by the Board of Commissioners. The audit is conducted in accordance with generally accepted auditing standards and the standards for financial audits contained in <u>Government Auditing Standards</u> issued by the Comptroller General of the United States. The audit will meet the requirements set forth by State statute and will include tests of the accounting records of the Authority and other procedures necessary for Rehmann Robson to express an opinion on the financial statements.

The auditor's report on the financial statements, required supplementary information and supplemental schedules are included in the **FINANCIAL SECTION** of this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Huron-Clinton Metropolitan Authority for its comprehensive annual financial report for the year ended December 31, 2009. This was the eighth consecutive year that the Authority has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

The preparation of this comprehensive annual financial report on a timely basis was a major undertaking for the Authority's Controllers Department. In particular, the extra efforts of Chief Accountant Rebecca Franchock, Accountant Tamara Torongo and Secretary Karen George were absolutely essential. The guidance from our independent auditors, Rehmann Robson, was also necessary to direct us through the compilation of our comprehensive annual financial report. These extra efforts are much appreciated.

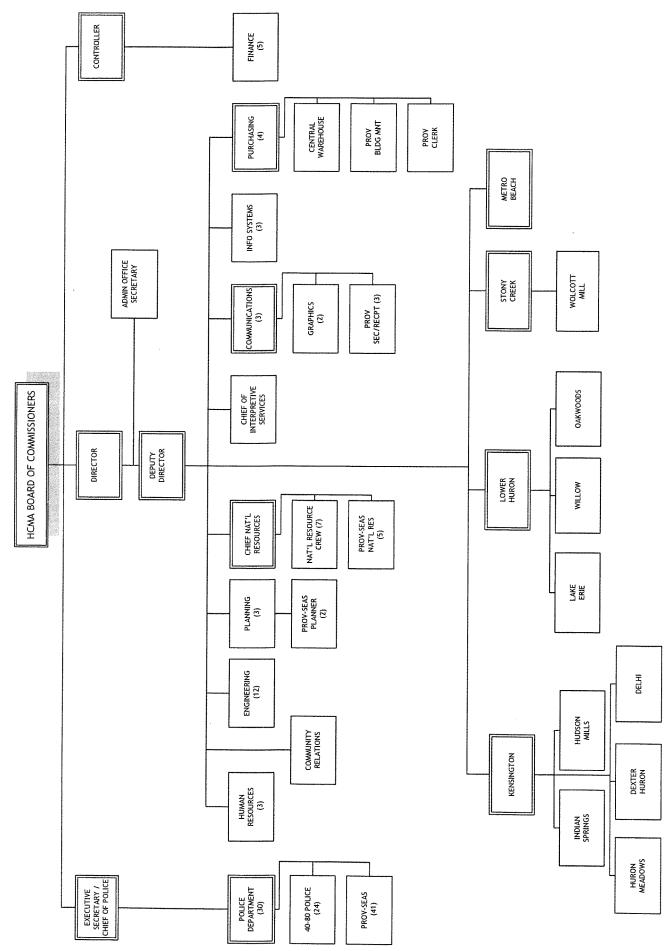

Finally, without the leadership and support of the Board of Commissioners, preparation of this report would not have been possible.

Respectfully submitted,

JONICHER

INDEPENDENT AUDITORS' REPORT

May 4, 2011

To the Board of Commissioners Huron-Clinton Metropolitan Authority Brighton, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of *Huron-Clinton Metropolitan Authority* (the "Authority"), as of and for the year ended December 31, 2010, (except for the Pension and Other Employee Benefit Trust Funds which are as of and for the year ended September 30, 2010) which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of *Huron-Clinton Metropolitan Authority*, as of December 31, 2010, (except for the Pension and Other Employee Benefit Trust Funds which are as of and for the year ended September 30, 2010) and the respective changes in financial position thereof and the budgetary comparisons of the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated [TBD], on our consideration of the *Huron-Clinton Metropolitan Authority's* internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and the Schedules of Pension Trust and Other Postemployment Benefit Trust Trend Information listed in the table of contents are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The Introductory Section, Combining Fund financial statements, and Statistical Section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion on them.

Mark Tschirhart, C.P.A, being duly sworn, deposes and says that he is a principal in the firm of Rehmann Robson and that he has signed the forgoing auditors' report in that capacity.

Rehmann Johann

Management's Discussion and Analysis

As management of the Huron-Clinton Metropolitan Authority, we offer the readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Huron-Clinton Metropolitan Authority for the year ended December 31, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, the financial statements and the notes to the financial statements.

Financial Highlights

- The assets of the Authority exceeded its liabilities at the end of 2010 by \$228,212,741 (net assets). Of this amount, \$33,118,763 (unrestricted net assets) may be used to meet the Authority's ongoing obligations to provide park and recreation services to the citizens of the five-county Metropark system.
- The Authority's total net assets increased by \$3,773,373.
- The emphasis of the Authority's revised Five-Year Plan is to renovate, reconstruct and replace worn out, outdated recreational facilities. 2010 capital improvement expenditures reflect this emphasis as indicated by the following projects:
 - 1. The reconstruction of Metro Beach's South Marina area was completed (\$521,000);
 - 2. The demolition and replacement of Kensington Metropark's Martindale Beach Bathhouse and Food Concession Buildings/Plaza was completed (\$382,000);
 - 3. The replacement of the failed Willow Metropark pool and deck was completed (\$361,000);
 - 4. Above ground fuel storage tanks were installed at service areas at Metro Beach and Kensington Metroparks at a cost of \$232,000;
 - 5. Prefabricated comfort stations were installed at Lake Erie Metropark Golf Course for \$299,000;
 - 6. The Children's Play Area at Lake Erie Metropark was completely replaced with new play structures for \$335,000;
 - 7. Metropark roadways were rebuilt at Kensington, Lower Huron and Stony Creek Metroparks to the tune of \$616,000.
- The Authority continued to meet the actuarially determined Pension Plan contribution of \$2,025,000 for the Plan year ended September 30, 2010.
- The Authority established the Retiree Health Care Plan and Trust in October 2005 for the exclusive purpose of prefunding retiree health care benefits for eligible retirees and spouses. The Authority funded the Annual Required Contribution (ARC) by transferring \$3,436,000 from the General Fund to the Retiree Health Care Trust for the Plan year ended September 30, 2010.
- Authority General Fund revenues at \$50.0 million fell short of 2010 budget targets by \$0.5 million (1.0 percent).

• Authority General Fund operating expenditures at \$40.4 million were under amended 2010 budget amounts by \$2.9 million (6.6 percent).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Authority's finances in a manner similar to private-sector business.

The *statement of net assets* presents information on all of the Authority's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The *statement of activities* presents information showing how the Authority's net assets changed during the most recent year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash* flows. Thus, revenues and expenses are reported in this statement for some items that will result only in cash flows in future years (i.e., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Authority that are principally supported by taxes and program revenues. The sole governmental activity of the Authority consists of providing regional park and recreation services in the five-county metropolitan Detroit area. The Authority is a single purpose governmental agency.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Authority, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Authority can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, government fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Authority maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General and Capital Projects funds, each of which are considered to be major funds.

The Authority adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided herein to demonstrate compliance with this budget.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Authority's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Authority uses a fiduciary fund to account for (1) its single employer, defined benefit pension plan, which accumulates resources for pension benefit payments to qualified Authority employees, and (2) its Retiree Health Care Plan and Trust, which accumulates resources for health care benefit payments to qualified Authority retirees. These funds are based on the Plan's September 30 fiscal year ends.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. This information is limited to a schedule concerning the Authority's progress in funding its obligation to provide pension benefits to its employees.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the Huron-Clinton Metropolitan Authority, assets exceeded liabilities by \$228,212,741 at the close of the year.

By far the largest portion of the Authority's net assets (86 percent) reflect its investment in capital assets (i.e., land, buildings, infrastructure, roads, park improvements, vehicles and equipment). The Authority uses these capital assets to provide park and recreation services to citizens; consequently, these assets are *not* available for future spending.

The Authority does not have any bonded debt.

Huron-Clinton Metropolitan Authority's Net Assets

| | Governmental Activities | | |
|-----------------------------------|-------------------------|---------------|--|
| | 2010 | 2009 | |
| Current and other assets | \$70,756,633 | \$70,662,929 | |
| Capital assets | 195,093,978 | 195,042,991 | |
| Total assets | 265,850,611 | 265,705,920 | |
| Long-term liabilities outstanding | 3,911,381 | 3,863,745 | |
| Other liabilities | 33,726,489 | 37,402,807 | |
| Total liabilities | 37,637,870 | 41,266,552 | |
| Net assets: | | | |
| Invested in capital assets | 195,093,978 | 195,042,991 | |
| Unrestricted | 33,118,763 | 29,396,377 | |
| Total net assets | \$228,212,741 | \$224,439,368 | |

No portion of the Authority's net assets represent resources that are subject to external restrictions on how they may be used. The *unrestricted net assets* may be used to meet the Authority's ongoing obligations for park and recreation facilities and services to citizens and creditors.

At the end of the current year, the Authority is able to report a positive balance in net assets. The same situation held true for the prior fiscal year.

The Authority's net assets increased by \$3,773,373 during the current year. Nearly all of this increase represents additional investment by the Authority in capital assets, net of depreciation.

Huron-Clinton Metropolitan Authority Changes in Net Assets

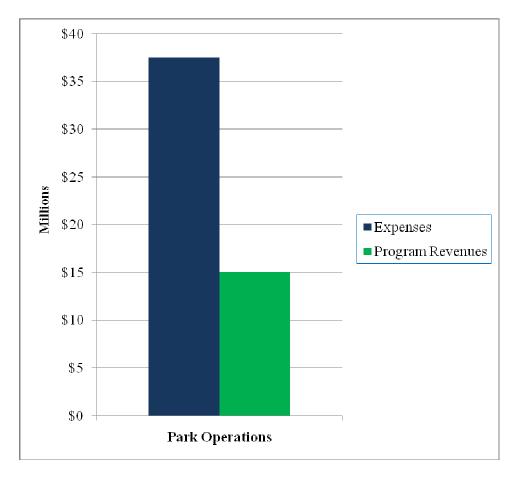

| | Governmental Activities | | |
|--------------------------------|-------------------------|---------------|--|
| | 2010 | 2009 | |
| Revenue: | | | |
| Program revenue: | | | |
| Park charges for services | \$14,715,827 | \$13,764,068 | |
| Operating grants | 7,598 | 78,358 | |
| Capital grants | 309,893 | 1,951,190 | |
| General revenue: | | | |
| Property taxes | 34,452,805 | 35,782,192 | |
| Oil and gas royalties | 436,028 | 440,623 | |
| Donations | 57,065 | 101,219 | |
| Interest | 474,515 | 863,140 | |
| Miscellaneous | 24,161 | 73,384 | |
| Total revenue | 50,477,892 | 53,054,174 | |
| Expenses: | | | |
| Park operations | 38,252,452 | 37,595,703 | |
| Administrative office | 5,800,274 | 5,724,151 | |
| Major maintenance | 1,134,337 | 1,794,155 | |
| General engineering/planning | 1,517,456 | 1,309,292 | |
| Total expenses | 46,704,519 | 46,423,301 | |
| Increase in net assets | 3,773,373 | 6,630,873 | |
| Net assets – beginning of year | 224,439,368 | 217,808,495 | |
| Net assets – end of year | \$228,212,741 | \$224,439,368 | |

Governmental activities. Governmental activities increased the Authority's net assets by \$3,773,373. Key elements of this increase are as follows:

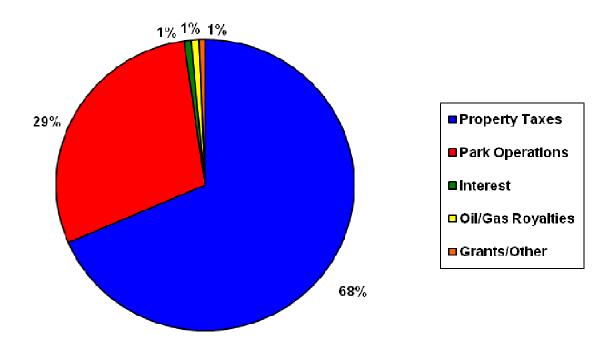

- Although property tax collections at \$34.45 million fell by \$1.3 million due to declining taxable values in the five-county Metropark district, park operating revenues increased by \$0.95 million as a toll fee increase was enacted in 2010 and favorable summer weather patterns pushed up aquatic facilities revenues.
- Capital grants declined by \$1,641,000 due to one time grants in 2009 for 1) the reconstruction of the South Marina at Metro Beach Metropark and 2) land acquisitions at Indian Springs Metropark.
- Direct operating expenses of the Metropark system increased by \$656,000 (1.7 percent) due largely to an increase in the loss on the sale of capital assets.

• Overall, 2010 revenues at \$50.5 million exceeded 2010 total operating expenses of \$46.7 million by \$3.8 million. These excess funds are used for Authority capital outlays and retained in the Authority's undesignated fund balance.

2010 Expenses and Program Revenues – Governmental Activities

2010 Revenues by Source – Governmental Activities

Financial Analysis of the Government's Funds

As noted earlier, the Authority uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Authority's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Authority's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the year.

As of the end of the current year, the Authority's governmental funds reported a combined ending fund balance of \$37,820,439, an increase of \$3,945,535 compared to 2009. Approximately 96 percent of this total amount (\$36.3 million) constitutes *unreserved fund balance*, which has been designated by the Authority for 2011 capital appropriations, supplemental major maintenance capital appropriations and the 2011 Budget. The remainder of fund balance (\$1.5 million) is *reserved* to indicate that it is not available for new spending because it has already been committed for: (1) capital improvement projects under contract, (2) equipment purchases on order, (3) engineering and consulting work under contract, (4) operating supplies inventory for consumption in park operations, and (5) a contingency fund for uninsured insurance claims.

The general fund is the primary operating fund of the Authority. At the end of the current year, unreserved fund balance of the general fund was \$29,812,797, while total fund balance was \$31,081,000. As a measure of the general fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents 64 percent of total general fund expenditures. The majority of the unreserved fund balance (\$15.6 million) has been designated by the Authority's Board of Commissioners for capital improvement projects and land acquisition. At the end of the year, no formal contractual commitments with outside parties have been made for these funds.

The fund balance of the Authority's general fund increased by \$3,610,246.

The following paragraphs present a summary of general fund revenues, which totaled \$50,027,898 for 2010, an overall decrease of \$2,611,132 from 2009. Revenues by source were as follows:

| Revenue | 2010 Amount | Percent of Total | 2009 Amount | Amount of Increase (Decrease) | Percent of Increase (Decrease) |
|-----------------|----------------|---------------------|----------------|-------------------------------------|--------------------------------|
| Property Taxes | \$34,528,432 | 69.0% | \$35,953,354 | (\$1,424,922) | (4.0%) |
| Park Operations | 14,715,827 | 29.5% | 13,764,068 | 951,759 | 6.9% |
| Interest | 384,922 | 0.8% | 717,457 | (332,535) | (46.4%) |
| Grants | 317,491 | 0.6% | 2,029,548 | (1,712,057) | (84.4%) |
| Donations | 57,065 | 0.1% | 101,219 | (44,154) | (43.6%) |
| Miscellaneous | 24,161 | | 73,384 | (49,223) | (67.1%) |
| Totals | \$50,027,898 | 100.0% | \$52,639,030 | (\$2,611,132) | (5.0%) |

The Authority's millage rate continued to be rolled back to .2146 mills in 2010, local community captured taxes (DDA's, TIFA's, Brownfields, etc.) remained the same and "taxable values" started on a downward spiral. The impact of the downturn in southeast Michigan's residential/commercial/industrial market started to show up in the Authority's "taxable value" numbers, which were established based on real estate data from October 1, 2007 to September 30, 2008. There is about a two year lag between market value declines and impact on "taxable values." The 2010 impact of these issues translated into a \$1.4 million (4.0 percent) drop in 2010 property tax collections. This is the largest single year decline in property taxes in the history of the Authority, both in dollar and percentage terms. "Taxable values" are expected to continue to decline for the next several years until the real estate market stabilizes.

The \$14,716,000 of 2010 park operating revenues exceeded 2010 Budget goal of \$14,699,000 by \$17,000 (0.1 percent). The \$14,716,000 generated in 2010 represented a \$952,000 (6.9 percent) increase from 2009 revenues. This increase helped in offsetting the \$1.4 million decline in property tax revenues. This increase was anticipated as toll entry fees were increased for the first time in eight years. Tolling revenues at \$5,691,000 increased by \$895,000 (19.0 percent) over 2009 tolling revenues. Much of the Authority's park operating revenues are weather dependent. 2010 experienced excellent summer weather patterns which, along with the reopening of the

Willow Metropark pool, helped push aquatic facility revenues up \$298,000 (27.0 percent) to \$1,382,000. Although golf rounds at the Authority's eight regulation 18-hole golf courses held steady at 207,000 rounds, the weak economy and continued discounting and golf specials had a negative impact on golf revenues, as they declined \$295,000 (6.0 percent) to \$4,636,000. In addition to these three categories, food service, marina dockage, reserved picnic fees and disc golf all experienced small revenue growth in 2010.

Interest income derived from investments in Certificates of Deposit and U.S. Agency issues fell further to \$385,000 in 2010. This was a \$333,000 (46 percent) drop from 2009 interest income, as interest rates fell to historic low levels. The overall average yield on Authority investments was only 0.9 percent for 2010.

The Authority recognized \$317,000 in grant revenues in 2010. The majority – \$296,000 – related to the State of Michigan Department of Natural Resources-Waterways Division grant for the reconstruction of Metro Beach's South Marina. Another \$14,000 was recognized from a grant related to engineering costs of the Kensington Metropark Hike/Bike Trail Connector. The \$317,000 recognized as grant revenue fell short of budget targets by \$582,000 since: (1) construction did not start as anticipated on the Kensington Metropark Hike/Bike Trail Connector due to permitting issues, and (2) land negotiations on the final parcel at Indian Springs Metropark bogged down.

General fund expenditures were \$46,829,578 for 2010, a decrease of \$6,405,401 from 2009's expenditures. A detailed breakdown of expenditures by major category is as follows:

| Expenditure | 2010 Amount | Percent of Total | 2009 Amount | Amount of Increase (Decrease) | Percent of Increase (Decrease) |
|------------------------|----------------|---------------------|----------------|-------------------------------------|--------------------------------------|
| Engineering/Planning | \$591,541 | 1.3% | \$790,872 | (\$199,331) | (25.2%) |
| Capital Improvements | 3,902,851 | 8.3% | 8,556,305 | (4,653,454) | (54.4%) |
| Equipment | 1,972,142 | 4.2% | 1,821,169 | 150,973 | 8.3% |
| Land Acquisition | 10,423 | - | 1,603,169 | (1,592,746) | (99.4%) |
| Major Maintenance | 1,131,938 | 2.4% | 1,442,499 | (310,561) | (21.5%) |
| General Administration | 5,571,405 | 11.9% | 5,649,403 | (77,998) | (1.4%) |
| General Planning | | | | | |
| and Engineering | 1,517,456 | 3.3% | 1,309,292 | 208,164 | 15.9% |
| Park Operations | 32,131,822 | 68.6% | 32,062,270 | 69,552 | 0.2% |
| Totals | \$46,829,578 | 100.0% | \$53,234,979 | (\$6,405,401) | (12.0%) |

Engineering and Planning Department expenses are divided between capital outlays and general operating expenditures (non-capitalized). The capitalized engineering and planning expenditures reflect expenses incurred on specific capital projects while they are planned and designed, prior to the awarding of a construction contract. These costs totaled \$592,000 in 2010, down significantly from 2009's levels as there was less outside consulting work on major capital improvement projects. The non-capitalized general planning and engineering operating

expenditures reflect planning and engineering expenses of a general nature that are not specifically tied to a capital improvement project. These expenditures include general planning studies, conceptual studies, community relations, Administrative Office overhead personnel, departmental fringe benefits and leave time. These expenses totaled \$1,517,000 in 2010, compared to \$1,309,000 in 2009.

Capital improvement outlays cover construction projects that exceed the Authority's \$10,000 capitalization limit. Throughout 2010, the Authority spent over \$3.9 million on 46 separate capital improvement projects within the Metropark system. This represents a significant decrease from 2009 expenditures of \$8.5 million, as four large multi-million dollar projects were undertaken in 2009. The \$3.9 million level of expenditures represents the first time in ten years that capital improvement expenditures have fallen below the \$6.0 million mark. The vast majority of 2010 projects continue to relate to the 3-R's type projects (repair, renovate and replace) in accordance with the Board of Commissioner approved revised Five-Year Plan. These projects enhanced the Authority's recreational facilities offered the public in terms of park roads, parking lots, buildings, aquatic facilities, marinas, utilities, landscaping, golf courses and other improvements. Many of the more significant 2010 capital improvement projects have been previously highlighted under the **MAJOR INITIATIVES** section of this report.

Equipment having an individual value in excess of \$1,000 is capitalized. During 2010 a total of \$2.0 million was spent equipping the Metropark system, up from 2009's level. Heavy equipment (mowers, tractors, golf cars, etc.) purchases accounted for \$1.2 million of equipment expenditures. Auto and truck acquisitions totaled \$0.6 million.

The Authority classifies all non-recurring repair/maintenance-type projects that exceed \$10,000 as Major Maintenance expenses. These projects do not substantially improve or alter an existing facility and, therefore, are not capitalized. During 2010, Metropark facilities were renovated with 32 separate projects at a cost of \$1,132,000.

General Administration costs reflect the costs of running the Authority's centralized Administrative Office, which ran \$5,571,000 in 2010, down 1.4 percent from 2009. This covers the cost of 28 full time employees, 125 retired employees (health care benefits contribution), materials, supplies and outside consultants utilized in managing the entire Metropark system. Personnel costs dropped to \$4,573,000, down \$125,000 (2.7 percent) from 2009 levels. This decline in 2010 expenditures came about as a result of a number of factors: (1) not replacing two full time employees, (2) less retirement severance payouts, and (3) lower cost for current retiree health care coverages. Outlays for materials/supplies/outside consulting services associated with the operation of the Administrative Office increased by \$47,000 (4.9 percent) to \$998,000.

The direct operating costs associated with operating and maintaining the 13 Metroparks to serve 9.2 million visitors consumed \$32.1 million of Authority funds. Comparing this \$32.1 million of park operating costs to 2009 expenditures of \$32.1 million shows that overall park operating costs were basically flat. Personnel related costs, which comprise 78 percent of park operating expenses, dropped from \$24,949,000 to \$24,781,000 – down \$168,000 (0.7 percent). Noteworthy factors to highlight related to 2010 personnel expenditures include: (1) a net decline of \$67,000 in full time wages due to further consolidation of positions through attrition for five positions, which more than offset a 1.0 percent across-the-board wage increase, (2) part time wages were reduced by \$261,000 (4.3 percent), (3) employee benefits fell \$119,000 due to less

costly severance payouts, and (4) employee group insurance costs rose \$290,000. The other 22 percent of park operating expenditures relate to material/supply/outside contractual services, which incurred \$7,351,000 of expenses, up \$238,000 (3.3 percent). Significant factors that contributed to this increase include: (1) utility costs bounced up \$124,000, (2) small tools and minor equipment expenditures pushed up \$160,000 due to equipping new facilities at Kensington Metropark's Martindale Food/Bathhouse, Stony Creek Metropark's Banquet Tent, Willow Metropark's Food/Pool, phone system components and raft/tube acquisitions at Lake Erie Metropark's Wave Pool, (3) park facility repair supplies/materials moved up \$111,000, (4) gas/diesel fuel costs pushed up \$85,000, (5) leasing of temporary facilities at Kensington Metropark's Splash-N-Blast was discontinued in 2010, creating a \$122,000 decline in rental expenditures, and (6) communication, outside equipment repairs and property/casualty insurance costs fell a combined \$115,000.

The capital projects fund is utilized by the Authority to record supplemental major maintenance projects that are non-recurring expenditures to repair/replace existing Metropark infrastructure. At the end of the current year, unreserved fund balance of the capital projects fund was \$6,458,797, while total fund balance was \$6,739,439. At the end of the year, no formal contractual commitments with any outside parties have been made for the majority of the fund balance.

The fund balance of the Authority's capital projects fund increased by \$335,289.

The following paragraph presents a summary of capital projects fund revenues, which totaled \$525,621 for 2010, an overall decrease of \$60,685 from 2009. Revenues by source were as follows:

| Revenue | 2010 Amount | Percent of Total | 2009 Amount | Amount of Increase (Decrease) | Percent of Increase (Decrease) |
|-----------------------|----------------|---------------------|----------------|-------------------------------------|--------------------------------------|
| Oil and Gas Royalties | \$436,028 | 83.0% | \$440,623 | (\$4,595) | (1.0%) |
| Interest | 89,593 | 17.0% | 145,683 | (56,090) | (38.5%) |
| Totals | \$525,621 | 100.0% | \$586,306 | (\$60,685) | (10.4%) |

Oil and gas wells at Kensington Metropark provided about the same amount of royalty payments in 2010 - \$436,000 - as in 2009 - \$441,000. Interest income derived from investments in money market funds and U.S. Agency issues continued to decline, falling from \$146,000 to \$90,000 in 2010.

Capital project fund expenditures were \$190,332 for 2010, a decrease of \$118,851 from 2009's expenditures. Breakdown of expenditures by major category is as follows:

| Expenditure | 2010 Amount | Percent of Total | 2009 Amount | Amount of Increase (Decrease) | Percent of Increase (Decrease) |
|----------------------|----------------|---------------------|----------------|-------------------------------------|--------------------------------|
| Major Maintenance | \$2,399 | 1.3% | \$351,656 | (\$349,257) | (99.3%) |
| Engineering/Planning | 187,933 | 98.7% | 40,702 | 147,231 | 3.6% |
| Capital Improvements | | | (83,175) | 83,175 | |
| Totals | \$190,332 | 100.0% | \$309,183 | (\$118,851) | (38.4%) |

General Fund Budgetary Highlights

Over the course of the year, the Authority's Board of Commissioners revised the Authority budget several times. These budget amendments fall into three categories:

- Increases in appropriations to prevent overruns for capital or operating expenditures.
- Amendments made shortly after the beginning of the year to reflect carryover capital appropriations.
- Amendments made to increase expenditure budgets for events that were not properly anticipated when the budget was compiled.

Differences between the original budget and the final amended budget were generally minor with the following exception:

• The \$2.7 million increase in capital expenditures budget relates mainly to capital improvement appropriations (\$2.1 million), engineering/planning appropriations (\$0.2 million), equipment appropriations (\$0.3 million) that were carried over from 2009 and \$0.1 million of land acquisition grant reimbursements that were appropriated.

During the year, general fund revenues fell short of final budgetary estimates in total by \$524,600, mainly because of grant revenues. All operating and capital expenditure categories were within amended budgeted amounts.

Capital expenditures were under budget by \$15,948,300 resulting mainly from 1) capital improvement projects that were in progress at year end totaling \$2.6 million, 2) capital improvement projects that were carried over and re-budgeted for 2011 totaling \$4.3 million, 3) \$2.1 million of capital improvement projects that have been deferred indefinitely due to the economic downturn and 4) \$5.9 million designated for future land acquisitions.

Capital Asset and Debt Administration

Capital assets. The Authority's investment in capital assets for its governmental-type activities as of December 31, 2010 amounted to \$195,093,978 (net of accumulated depreciation). This investment in capital assets includes land, land improvements (golf courses, etc.), buildings, roads, bridges, sewer/water systems, park facilities and equipment. The total increase in the Authority's investment in capital assets (net of depreciation) for the year was a minimal increase of \$51,000.

Major capital asset events during the current year included the following:

| South Marina Redevelopment | Metro Beach | \$521,000 |
|---|-----------------------|-----------|
| Martindale Bathhouse/Concession Building* | Kensington | 382,000 |
| Main Park Road Reconstructions | Kensington/ | 616,000 |
| | Lower Huron/ | |
| | Stony Creek | |
| Willow Pool/Deck Replacement | Willow | 361,000 |
| • Environmental Discovery Center Interpretive Displays | Indian Springs | 134,000 |
| Comfort Stations – Golf Course* | Lake Erie | 299,000 |
| Play Area Replacement* | Metro Beach | 335,000 |
| Heavy Equipment | All Parks | 1,169,000 |
| Autos/Trucks | All Parks | 646,000 |

^{*} Denotes construction in progress.

Huron-Clinton Metropolitan Authority's Capital Assets

(Net of Depreciation)

| | Governmental Activities | | |
|--------------------------|--------------------------------|---------------|--|
| 2010 | | 2009 | |
| Land | \$45,898,309 | \$45,887,886 | |
| Land Improvements | 33,491,825 | 33,097,828 | |
| Construction in Progress | 4,232,632 | 16,043,278 | |
| Buildings | 47,123,654 | 35,661,404 | |

| Infrastructure | 26,342,943 | 23,612,425 | |
| Total | \$195,093,978 | \$195,042,991 | |

Additional information on the Authority's capital assets can be found in note III.C. in the Notes to Financial Statements.

Long-term debt. The Authority has recognized \$4,807,430 in accrued compensated absences.

The Authority has no bonded debt or capital leases.

Additional information on the Authority's long-term debt can be found in note III.D. in the Notes to Financial Statements.

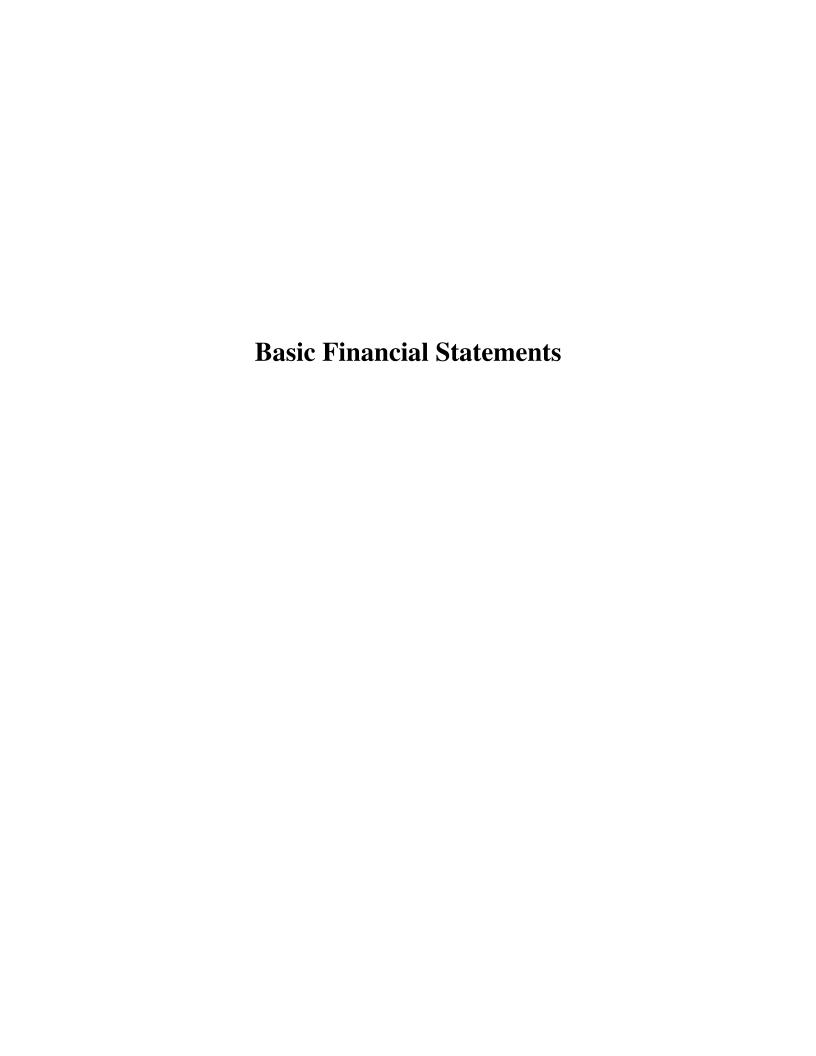

Economic Factors and Next Year's Budget and Rates

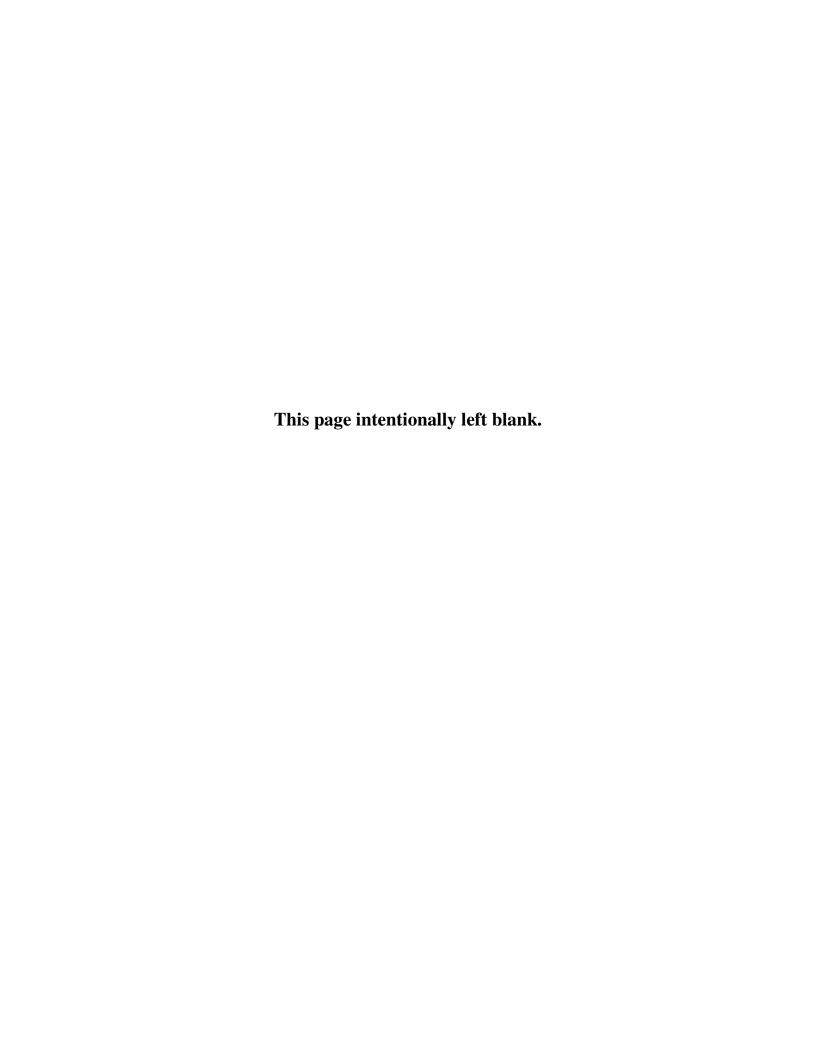

The following factors guided the preparation of the Authority's 2011 Budget:

- The Board of Commissioners approved a July 2009 revised Five-Year Plan for 2010 to 2012 and updated the Plan in May 2010 providing general guidance on the allocation of Authority funds, both capital and operational.
- Property tax revenues were based on a rolled back millage rate of .2146 mills. The 2011 Budget was based on "net" tax levy revenues of \$31.3 million after factoring out estimated captured tax revenues from tax abatement programs. This decline in tax revenues reflects a continuing decline in real estate taxable values in the Authority's five-county tax district.

Requests for Information

This financial report is designed to provide a general overview of the Huron-Clinton Metropolitan Authority's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Controller, Huron-Clinton Metropolitan Authority, 13000 High Ridge Drive, Brighton, Michigan, 48114-9058.

RECONCILIATION OF THE STATEMENT OF NET ASSETS AND GOVERNMENTAL FUNDS BALANCE SHEET

DECEMBER 31, 2010

| Fund balance - total governmental funds | \$ 37,820,439 |
|--|----------------|
| When capital assets (land, buildings, equipment) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the Authority as a whole. | |
| Cost of capital assets | 261,015,121 |
| Accumulated depreciation | (65,921,143) |
| Net capital assets | 195,093,978 |
| Since governmental funds recognize revenue on the modified accrual basis of accounting, the proceeds on sale of land under a land contract sale is not recognized as revenue in the governmental funds until it is "available." However, in the statement of activities, the sale of the land is recognized in revenue. | 76,820 |
| Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets are offset by deferred revenues in the governmental funds and thus are not included in fund balance. | 222,996 |
| Long-term liabilities applicable to the Authority's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities. All liabilities both current and long-term are reported in the statement of net assets. | |
| Compensated absences | (4,807,430) |
| Other postemployment benefit obligation | (194,062) |
| Net assets - total governmental activities | \$ 228,212,741 |

RECONCILIATION OF THE STATEMENT OF ACTIVITIES AND GOVERNMENTAL FUNDS REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES

FOR THE YEAR ENDED DECEMBER 31, 2010

| Net change in fund balances - total governmental funds | \$ 3,945,535 |
|--|---------------------|
| Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense | |
| Add capital outlay expense | 6,664,890 |
| Less current year depreciation | (5,615,739) |
| Less book basis in assets sold | (998,164) |
| Since governmental funds recognize revenue on the modified accrual basis of accounting, the proceeds on sale of land under a land contract are not recognized as revenue in the governmental funds until they are "available." However, in the statement of activities, the sale of the land is recognized in revenue. | (1,971) |
| Because some property taxes will not be collected for several months after the Authority's fiscal year end, they are not considered as "available" revenues in the governmental funds. Similarly, some property taxes may ultimately be uncollectable and an allowance for these collectibles has been established in the statement of activities. | (75,626) |
| Because some expenses will not be paid using current financial resources, they are not included in the governmental funds. However, the liability results in an expense in the statement of activities. | (75,020) |
| Deduct increase in accrual for compensated absences Add decrease in other postemployment benefit obligation | (172,147) 26,595 |
| Change in net assets of governmental activities | \$ 3,773,373 |

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Huron-Clinton Metropolitan Authority ("the Authority") was created in 1939 as a special district form of government to provide recreational facilities and services to residents of Livingston, Macomb, Oakland, Washtenaw, and Wayne Counties. The Authority is governed by a Board of Commissioners, which consists of a Commissioner appointed by the Board of Commissioners from each of the five participating counties, and two Commissioners appointed by the Governor of Michigan. Principal funding for the Authority is derived from a property tax levy assessed in each of the five participating counties.

The Authority has determined that no entities should be consolidated into its basic financial statements as component units. The criteria for including a component unit include entities for which the government is considered to be financially accountable. Therefore, the reporting entity consists only of the primary government.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of the interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Authority.

The Authority reports the following major governmental funds:

The *general fund* is the Authority's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *capital projects fund* is used to record supplemental major maintenance projects of the Authority, which are nonrecurring expenditures to repair or replace existing park facilities. As designated by the Authority, oil and gas revenues received are earmarked to fund these projects.

In addition, the government reports the following fund types:

The *pension and other employee benefit trust funds* account for the Authority's single employer, defined benefit pension plan and other postemployment benefits, which accumulate resources for pension benefit and other postemployment benefit payments to qualified Authority employees. The Funds are based on the Plans' September 30th fiscal year ends.

NOTES TO FINANCIAL STATEMENTS

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include: (1) charges to park customers, and (2) capital and operating grants. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes along with oil and gas royalties.

When both restricted and unrestricted resources are available for use, it is the Authority's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, Liabilities and Net Assets

1. Deposits and investments

The Authority's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the government to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers' acceptances, and mutual funds composed of otherwise legal investments. The State's Pension Investment Act, as amended, authorizes the pension trust fund to invest in common stocks, real estate, and various other investment instruments, subject to certain limitations.

Investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have established market values are reported at estimated fair value as determined by the custodians. Cash deposits are reported at carrying amounts, which reasonably approximates fair value.

Unrealized appreciation or depreciation on pension trust fund investments due to changes in fair value is recognized each year.

NOTES TO FINANCIAL STATEMENTS

2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of inter-fund loans) or "advances to/from other funds" (i.e., the non-current portion of inter-fund loans). All other outstanding balances between funds are reported as "due to/from other funds".

All property tax receivables are shown net of an allowance for uncollectible amounts. The allowance is estimated based upon the original year of the assessment and uses a graduated percentage ranging from 10 to 100 percent of the balance outstanding.

Real and personal property taxes are levied on December 1 on the taxable value of property located in the Counties as of the preceding December 31 (lien date). Taxable values are established annually by municipalities and are equalized by the Counties and State at 50 percent of estimated current market value or less. The Authority's operating tax rate for the 2009 levy (2010 property tax revenue) was .2146 mills. Taxes are receivable on the levy date and become delinquent on March 1 the following year. Property tax revenues are recognized as revenues in the operating year in which the levy is intended to fund to the extent that that they are measurable and available, and collected within sixty days after year end.

3. Inventories and prepaid items

Inventory maintained by the General Fund is valued at average cost. Inventory consists of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed.

Certain payments made to vendors are for services applicable to future accounting periods and are included as other asset items in both the government-wide and fund financial statements.

4. Capital assets

Capital assets, which include property, buildings, equipment, other improvements and infrastructure (e.g., roads, bridges, paved pathways and water/sewer lines), are reported in the Statement of Net Assets column in the basic financial statements. Capital assets are defined by the Authority as assets with an initial, individual cost of more than \$1,000 for equipment and \$10,000 for all other assets, and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

NOTES TO FINANCIAL STATEMENTS

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government are depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|--------------------|--------------|
| Buildings | 30 - 50 |
| Infrastructure | 15 - 50 |
| Other improvements | 15 - 60 |
| Equipment | 3 - 25 |

5. Compensated absences

The Authority allows employees to earn annual leave benefits and sick leave termination bonuses based, in part, on length of service. Annual leave is fully vested when earned and sick leave termination bonuses vest upon completion of ten years of service. Upon termination, employees are paid their accumulated sick leave termination bonuses and annual leave depending upon the nature of separation (death, retirement, or termination). All vacation pay is accrued when incurred in the government-wide fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

6. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities statement of net assets.

7. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTES TO FINANCIAL STATEMENTS

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. **Budgetary Information**

A budget for the General Fund is adopted, on a basis consistent with generally accepted accounting principles (GAAP), and is adopted on a category level. An operating budget including major maintenance, park operations and general administration categories lapses at year end. Capital outlay budgets including engineering and general planning, capital improvements, equipment and land acquisition categories do not lapse at year-end.

Adoption and amendments of budgets used by the Authority are governed by Public Act 621. The governing body must approve the budget and amendments, including supplemental appropriations at the category level. The Authority's management can transfer appropriations between line items within a category without governing body approval.

B. Excess expenditures over appropriations

During the year ended December 31, 2010, the Authority incurred no expenditures that were in excess of the budgetary amounts.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Summary of Deposit and Investment Balances

Following is a reconciliation of deposit and investment balances as of December 31, 2010 and as of September 30, 2010 for the Pension and Other Employee Benefit Trust Funds:

| Deposits and Investments | Deposits | Investments | Other | Total |
|--|---------------|---------------|-----------|--------------|
| Governmental - wide financial statement captions | | | | |
| Cash and cash equivalents | \$ 3,290,327 | \$ - | \$ 27 250 | \$ 3,317,577 |
| Investments | 24,255,304 | 11,150,000 | 49,732 | 35,455,036 |
| Fiduciary fund financial statement captions | | | | |
| Cash and cash equivalents | 1,165,126 | - | - | 1,165,126 |
| Investments | | 47,313,644 | | 47,313,644 |
| | \$ 28,710,757 | \$ 58,463,644 | \$76,982 | \$87,251,383 |

The amounts included in the "Other" category above represent petty cash, change funds, and accrued interest.

NOTES TO FINANCIAL STATEMENTS

Statutory Authority

The Authority is authorized by statute to invest surplus funds in the following:

- a. Bonds, securities, other obligations and repurchase agreements of the United States, or an agency or instrumentality of the United States.
- b. Certificates of deposit, savings accounts, deposit accounts or depository receipts of a qualified financial institution.
- c. Commercial paper rated at the time of purchase within the 2 highest classifications established by not less than 2 standard rating services and that matures not more than 270 days after the date of purchase.
- d. Bankers' acceptances of United States banks.
- e. Obligations of the State of Michigan and its political subdivisions that, at the time of purchase are rated as investment grade by at least one standard rating service.
- f. Mutual funds registered under the Investment Company Act of 1940, limited to mutual fund securities whose intention is to maintain a net asset value of \$1.00 per share.
- g. External investment pools as authorized by Public Act 20 as amended through December 31, 1997.
- h. In additions, the trust funds can invest in common stock, real estate, and various other investments.

The Board of Commissioners is authorized to designate depositories for the Authority's funds, and to determine that the funds are invested in accordance with State of Michigan statutory authority.

The Authority's deposits are in accordance with statutory authority.

NOTES TO FINANCIAL STATEMENTS

The Authority's investments are categorized below to give an indication of the level of risk assumed by the entity at December 31, 2010.

| | | | RATING | | |
|----------------------------------|---------------|--------------|--------------|---------------|---------------|
| Type of investment | AAA | AA- | A | NR | Total |
| US Agencies | | | | | |
| 1 to 3 years | \$ 11,150,000 | \$ - | \$ - | \$ - | \$ 11,150,000 |
| Guaranteed Interest Contracts | | | | | |
| 1 to 4 years | - | 2,217,859 | 9,331,563 | - | 11,549,422 |
| Immediate Participation Contract | | | | | |
| 1 to 6 years | - | 1,692,578 | - | - | 1,692,578 |
| Mutual Funds | | | | | |
| less than 1 to 58 years | | | | 34,071,644 | 34,071,644 |
| | \$ 11,150,000 | \$ 3,910,437 | \$ 9,331,563 | \$ 34,071,644 | \$ 58,463,644 |

Investment and deposit risk

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified in the above list of authorized investments. The Authority's investment policy does not have specific limits in excess of State law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to specific government securities, certificates of deposit and bank accounts with qualified institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments above. In compliance with State law, the Authority's investment policy limits investments to the top two ratings issued by nationally recognized statistical rating organizations. The Authority's investment policy does not have specific limits in excess of state law on investment credit risk. As of December 31, 2010, the Authority's investments in corporate bonds and corporate asset-backed securities were within these guidelines.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned. State law does not require and the Authority does not have a policy for deposit custodial credit risk. As of year-end,

NOTES TO FINANCIAL STATEMENTS

\$22,628,772 of the Authority's bank balance of \$25,161,582 was exposed to custodial credit risk because it was uninsured and uncollateralized.

Custodial Credit Risk – Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the Authority does not have a policy for investment custodial credit risk. On the investments listed above, there is no custodial credit risk, as these investments are either uninsured, unregistered, and held by a counterparty in the Authority's name or are uncategorized as to credit risk.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments above. The Authority's investment policy does not have specific limits in excess of state law on concentration of credit risk. The investments that exceed 5 percent of the Authority's total investments are in mutual funds, investment pools, and US Agencies securities. All investments held at year-end are reported above.

B. Receivables

Receivables as of year-end for the governmental activities in the aggregate, are as follows:

| Taxes | \$ 31,383,681 |
|---|---------------|
| Accounts receivable | 91,112 |
| Due from grants | 89,365 |
| Due from other governments, current | 2,088 |
| Due from other governments, non-current | 74,732 |

Total \$31,640,978

Taxes receivable consist of the 2010 levy to be received in 2011 as well as delinquent personal property taxes. They are shown net of the allowance for doubtful accounts of \$1,401,000.

The current and non-current amount due from other governments is a receivable from a municipality for land sold by the Authority on a land contract sale. This amount is receivable over 25 years.

NOTES TO FINANCIAL STATEMENTS

Governmental funds report *deferred revenue* in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

At the end of the current fiscal year, the various components of *deferred revenue* reported in the governmental funds were as follows:

| | <u>Unavailable</u> |
|---|--|
| Taxes receivable | \$ 31,563,214 |
| Due from other governments, current | 2,088 |
| Due from other governments, non-current | 74,732 |
| Deferred operating revenue | 39,260 |
| Total deferred revenue for governmental funds | <u>\$ 31,679,294</u> |
| Interfund Receivables and Payables | |
| Due to | Due from Capital <u>Projects</u> |
| General fund | <u>\$ 19,145</u> |

The outstanding balance between funds results mainly from the time lag between the dates that: (1) interfund goods and services are provided, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

NOTES TO FINANCIAL STATEMENTS

C. Capital Assets

Capital assets activity for the year ended December 31, 2010 was as follows:

| | Beginning Balance | Increases Decreases | | Transfers | Ending Balance |
|---------------------------------------|----------------------|---------------------|--------------|--------------|-------------------|
| Governmental activities | | | | | |
| Capital assets not being depreciated: | | | | | |
| Land | \$ 45,887,886 | \$ 10,423 | \$ - | \$ - | \$ 45,898,309 |
| Land improvements | 33,097,828 | - | - | 393,997 | 33,491,825 |
| Construction in progress | 16,043,278 | 3,902,847 | (17,211) | (15,696,282) | 4,232,632 |
| Total capital assets not being | | | | | |
| depreciated | 95,028,992 | 3,913,270 | (17,211) | (15,302,285) | 83,622,766 |
| Capital assets being depreciated: | | | | | |
| Buildings | 51,849,214 | - | (959,013) | 211,777 | 51,101,978 |
| Equipment | 24,222,066 | 1,972,143 | (2,326,652) | - | 23,867,557 |
| Other improvements | 45,243,696 | 779,477 | (333,810) | 10,878,823 | 56,568,186 |
| Infrastructure | 41,886,532 | | (243,583) | 4,211,685 | 45,854,634 |
| Total capital assets being | | | | | |
| depreciated | 163,201,508 | 2,751,620 | (3,863,058) | 15,302,285 | 177,392,355 |
| Less accumulated depreciation for: | | | | | |
| Buildings | (16,187,810) | (1,016,054) | 682,982 | - | (16,520,882) |
| Equipment | (13,793,184) | (1,897,925) | 1,808,480 | - | (13,882,629) |
| Other improvements | (14,932,408) | (1,337,343) | 263,809 | - | (16,005,942) |
| Infrastructure | (18,274,107) | (1,364,417) | 126,834 | | (19,511,690) |
| Total accumulated depreciation | (63,187,509) | (5,615,739) | 2,882,105 | | (65,921,143) |
| Total capital assests being | | | | | |
| depreciated, net | 100,013,999 | (2,864,119) | (980,953) | 15,302,285 | 111,471,212 |
| Governmental activities capital | | | | | |
| assets, net | \$ 195,042,991 | \$ 1,049,151 | \$ (998,164) | \$ - | \$ 195,093,978 |

Depreciation expense was charged to functions/programs of the Authority as follows:

Governmental activities
Park operations
Administrative offices

\$ 5,532,196
83,543

Total depreciation expense - governmental activities

\$ 5,615,739

NOTES TO FINANCIAL STATEMENTS

D. Long-term Debt

Accrued compensated absences amounted to \$4,807,430 at year-end. Of this amount \$1,090,111 is expected to be paid in the following year.

Changes in long-term debt

Long-term liability activity for the year ended December 31, 2010, was as follows:

| | Beginning Balance | Additions | Reductions | Ending Balance | Due Within One Year | |
|----------------------|----------------------|--------------|--------------|-------------------|---------------------------|--|
| Compensated absences | \$ 4,635,283 | \$ 1,035,173 | \$ (863,026) | \$ 4,807,430 | \$ 1,090,111 | |

IV. OTHER INFORMATION

A. Risk Management

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and distribution of assets; errors and omissions; injuries to employees and natural disasters. The Authority carries commercial insurance to cover any potential claims associated with these risks and has had no claims that exceeded the insurance coverage during the past three years.

B. Contingent Liabilities

The Authority has received state grants for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowance under terms of the grants, management believes that any required reimbursements would not be material.

NOTES TO FINANCIAL STATEMENTS

C. Other Postemployment Benefits

1. Plan Description

On October 1, 2005, the Authority established the Retiree Health Care Plan & Trust (the "Plan and Trust") with a fiscal year ending September 30. This Plan and Trust was created under the authority of the Public Employee Health Care Fund Investment Act, Public Act 149 of 1999 (MCL 38.1211 et seq.), and constitutes a governmental trust pursuant to Section 115 of the Internal Revenue Code of 1986, as amended. The activity of the Plan and Trust has been recorded in the Authority's Postemployment Benefit Trust Fund in the Authority's primary government financial statements and a stand-alone financial report of the Plan has not been issued. The Plan is a singleemployer defined benefit plan and is administered by the Authority's Retiree Health Care Plan & Trust Committee as appointed by the Authority's Board of Commissioners. Benefit provisions and contribution requirements are established and may be amended by the Board of Commissioners. The Plan and Trust was established to allow for the Authority's funding of retiree health care benefits, an essential governmental function. The Plan and Trust was created for the exclusive purpose of providing health care, dental, and optical insurance benefits or such other benefits approved by the Authority for the welfare of certain retirees and spouses eligible to receive a retirement benefit. Substantially all of the Authority's employees may become eligible for these benefits when they retire, after attaining 10 years of credited service. Effective January 1, 2009, employees hired on or after January 1, 2009 are not covered under the Retiree Health Care Plan and Trust, but are covered under the Retirement Health Savings Plan.

The Plan and Trust's fiscal year is September 30, however, the actuarial valuation of the funded status of the Plan and Trust is performed as of October 1 of every other year. As of October 1, 2009, (date of the most recent actuarial valuation), membership consisted of:

| Total | 354 |
|--|-----|
| Active employees covered by the plan | 230 |
| benefits but not yet receiving them | - |
| Terminated vested employees entitled to | |
| benefits | 124 |
| Retirees and beneficiaries currently receiving | |

NOTES TO FINANCIAL STATEMENTS

2. Investments

The Authority maintains an investment policy for the Plan and Trust which permits 5% to 40% of Plan and Trust assets to be invested in high quality fixed income securities, 15% to 50% in equity type securities and 25% to 60% in guaranteed rate of return contracts.

3. Summary of Significant Accounting Policies

a. Basis of Accounting

The Plan and Trust's financial statements are prepared using the accrual basis of accounting. The Authority's contributions to the Plan and Trust are recognized in the period that the contributions are due. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

b. Method Used to Value Investments

Investments are reported at fair value, as indicated by quoted market prices as of September 30, 2010. Shares of mutual funds are valued at the net asset value of the shares held by the Plan and Trust at September 30, 2010.

c. Funding Policy

The Authority contributes to the Plan and Trust an amount consistent with the actuarial valuations and calculations made by the Actuary for the Plan and Trust to result in a pre-funded plan. The Authority reserves the right to fund these health care benefits on a pay-as-you-go basis and the right to provide such lesser amount as the Authority determines. Qualified beneficiaries shall contribute those amounts required for additional coverage as optioned by such qualified beneficiaries, required by an applicable collective bargaining agreement, and otherwise determined by the Trustees.

d. Annual OPEB Cost and Net OPEB Obligation

The Authority's annual cost of providing other postemployment benefits (OPEB) is calculated based on the annual required contribution (ARC) to the employer. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities or funding excess over a period not to exceed 30 years.

NOTES TO FINANCIAL STATEMENTS

The following table shows the components of the Authority's OPEB cost, the amount actually contributed to the Plan, and changes in the Authority's net OPEB obligation for the year ended December 31, 2010:

| Annual required contribution | \$3,354,066 |
|--|-------------|
| Interest on net OPEB obligation | (16,549) |
| Adjustment to annual required contribution | 11,026 |
| Annual OPEB cost | 3,348,543 |
| Contibutions made | (3,375,138) |
| Decrease in net OPEB obligation | (26,595) |
| Net OPEB obligation, beginning of year | 220,657 |
| Net OPEB obligation, end of year | \$ 194,062 |
| • | |

The Authority's annual OPEB cost, percentage of annual OPEB cost contributed and the net OPEB obligation for the last three years were as follows:

| Year | Annual | Actual | Percentage Annual OPEB | | Net |
|--------------|-------------|---------------------|---------------------------|-------------|---------|
| Ended | OPEB Cost | Contribution | Cost Contributed | OPEB | |
| 12/31/10 | \$3,348,543 | \$3,375,138 | 100.8% | \$ | 194,062 |
| 12/31/09 | 3,360,898 | 3,438,302 | 102.3% | | 220,657 |
| 12/31/08 | 2,444,000 | 2,145,939 | 87.8% | | 298,061 |

e. Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions regarding the probability of the occurrence of events in the future. Examples of such assumptions include future employment and retirement patterns, mortality, investment rate returns and health care inflation. These assumptions are subject to continual revision as actual results are measured against past expectations and new estimates are made about the future. The schedules of funding progress, presented as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTES TO FINANCIAL STATEMENTS

The accompanying schedules of employer contributions present trend information about the amounts contributed to the plan by employers in comparison to the ARC, an amount that is actuarially determined in accordance with the parameters of GASB Statement 43. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

Projections of benefits for financial reporting purposes are based on the substantive plan as understood by the employer and plan members and include the types of benefits provided at the time of each valuation and the historical pattern of cost sharing between the employer and plan members to that point. The actuarial methods and assumptions used to prepare each valuation are designed to reduce short-term volatility in the value of actuarial accrued assets and liabilities, consistent with the long-term perspective of the calculations.

The entry age actuarial cost method was used to prepare the most recent actuarial valuation dated October 1, 2009. Other significant assumptions were as follows: (a) investments are assumed to earn 7.5% per year, (b) health care costs are assumed to increase at an annual rate of 9% in year 1, reduced by 0.5% each year for the next seven years and 0.25% the following year until an ultimate rate of 5% is reached in the tenth year and beyond, (c) compensation is assumed to increase 5% per year and (d) active member population was assumed to remain constant. The unfunded liability is being amortized as a dollar level over a closed period of 30 years.

f. Funding Status and Progress

The funded status of the Plan and Trust as of October 1, 2009, the date of the most recent actuarial valuation, is as follows:

| Actuarial accrued liabilities (AAL) | (1) | \$40,700,314 | |
|---|-------|---------------|-----------|
| Actuarial value of plan assets | (2) | 6,697,411 | |
| | | | |
| Unfunded actuarial accrued liability (UAA | L (3) | \$ 34,002,903 | (1) - (2) |
| | - | _ | |
| Funded ratio | (4) | 16.5% | (2)/(1) |
| Covered payroll (active plan membership) | (5) | \$ 14,203,220 | |
| UAAL as a percentage of covered payroll | (6) | 239.4% | (3)/(5) |
| | | | |

Effective January 1, 2009 the Retiree Health Care Plan and Trust was closed to new entrants; therefore, the annual required contribution is no longer allowed to be calculated assuming an increasing active payroll.

NOTES TO FINANCIAL STATEMENTS

D. <u>Defined Benefit Pension Plan</u>

The following brief description of the Huron-Clinton Metropolitan Authority's Employee's Retirement Plan (The Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

1. Plan Description

The Plan is a single-employer noncontributory defined benefit pension plan covering substantially all of the Authority's full-time employees. The Plan's fiscal year end is September 30, however, the actuarial valuation of the funded status of the Plan is performed as of October 1 of each year. The Plan is included as a pension trust fund in the Authority's primary government financial statements and a stand-alone financial report of the Plan has not been issued. The Plan is administered by the Authority's Pension Committee as appointed by the Authority's Board of Commissioners. Benefit provisions and contribution requirements are established and may be amended by the Board of Commissioners.

2. Eligibility

The Plan provides eligible participants with retirement benefits as well as disability benefits. All retirement benefits fully vest after ten years of credited service, with partial vesting granted for service less than ten years. Employees who retire at age 65 are entitled to an annual retirement benefit, payable monthly in an amount equal to 2% of the highest consecutive five year average monthly earnings in the last ten years of service, with a maximum monthly benefit of 71% of the final average monthly earnings. Employees may retire at age 60 with an unreduced benefit only if they have 25 or more years of service at early retirement. Employees retiring at age 55 with ten years credited service are entitled to receive a reduced monthly retirement benefit.

At October 1, 2010 the Plan participants consisted of:

NOTES TO FINANCIAL STATEMENTS

3. Investments

The Authority maintains an investment policy for the Plan which permits 5% to 40% of Pension Trust Fund assets to be invested in high quality fixed income securities, 15% to 50% in equity type securities and 25% to 60% in guaranteed rate of return contracts.

4. Required contributions

The Authority's funding policy provides for annual employer contributions at actuarially determined rates to fund the increase in prior service liabilities on a level percent of payroll over a thirty-year period. Employer contribution rates are determined using the Entry Age actuarial cost method. Employees are not required to contribute to the Plan.

5. Summary of significant accounting policies

a. Basis of accounting

The Plan's financial statements are prepared using the accrual basis of accounting. The Authority's contributions to the Plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. The administrative costs are financed through investment earnings.

b. Method used to value investments

Equity investments and bonds are reported at fair value. Investments for which market quotations are not readily available are valued at their fair values as determined by the custodian under the direction of the Authority's Pension Committee. The investments of the Pension Trust Fund are not federally insured.

NOTES TO FINANCIAL STATEMENTS

c. Annual pension cost and net pension obligation

The Authority's annual pension cost and net pension obligation to the Huron-Clinton Metropolitan Authority Employees Retirement Trust for the current year was as follows:

| Net pension obligation, end of year | <u>\$</u> |
|---|--------------|
| Net pension obligation, beginning of year | _ |
| Increase (decrease) in net pension obligation | - |
| Contribution made | (2,024,612) |
| Annual required contribution/pension cost | \$ 2,024,612 |

The annual required contribution for the current year was determined as part of the October 1, 2010 actuarial valuation using the individual entry age actuarial cost method. Benefits are funded on a level percentage of earnings from each participant's date of participation to assumed retirement date. The effects of plan improvements and changes in assumptions are amortized over 30 years. The actuarial assumptions included: (a) 7.25% investment rate of return on the investment, compounded annually, and (b) projected salary increases of 5% per year compounded annually. There is no assumption for cost of living or inflationary adjustments. Smoothed asset value that spreads the difference between the assumed return and the actual investment return over a five (5) year period was used to determine the actuarial value of assets. The amortization method used is a 30-year, level percent of payroll method where the effect of plan improvements and changes in assumptions are amortized over 30 years on an open end basis. Gains and losses are not separately amortized but reduce or increase the amortization balances and payments.

d. Concentration of risk

The Authority has investments in individual organizations that each represents an amount of 5% or more of total plan net assets. These organizations are as follows:

| Organization | Investment Type | Percent | | |
|--------------------------|--------------------------------|----------------|--|--|
| Hartford Life | Guaranteed Investment Contract | 19% | | |
| Principal Life Insurance | Guaranteed Investment Contract | 6% | | |

NOTES TO FINANCIAL STATEMENTS

e. Trend information

Three-Year Trend Information

| | Annual Pension <u>Cost (APC)</u> | Percentage of APC <u>Contributed</u> | Net Pension Obligation | |
|---------|--|--|------------------------------|---|
| 9/30/10 | \$ 2,024,612 | 100% | \$ | - |

| 9/30/08 | 1,897,605 | 100% | | - |

f. Funded Status and Funding Progress

The funded status of the Plan as of October 1, 2010, the date of the most recent actuarial valuation, is as follows:

| Actuarial Value of Assets (AVA) | Actuarial Accrued Liability (AAL) Entry Level | Unfunded Actuarial Accrued Liability (UAAL) | Funded <u>Ratio</u> | Annual Covered <u>Payroll</u> | UAAL as Percent of Payroll |
|--|---|---|------------------------|-------------------------------------|----------------------------|
| \$ 40,754,922 | \$ 58,938,351 | \$ 18,183,429 | 69.15% | \$ 14,234,287 | 127.74% |

The schedules of funding progress, presented as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

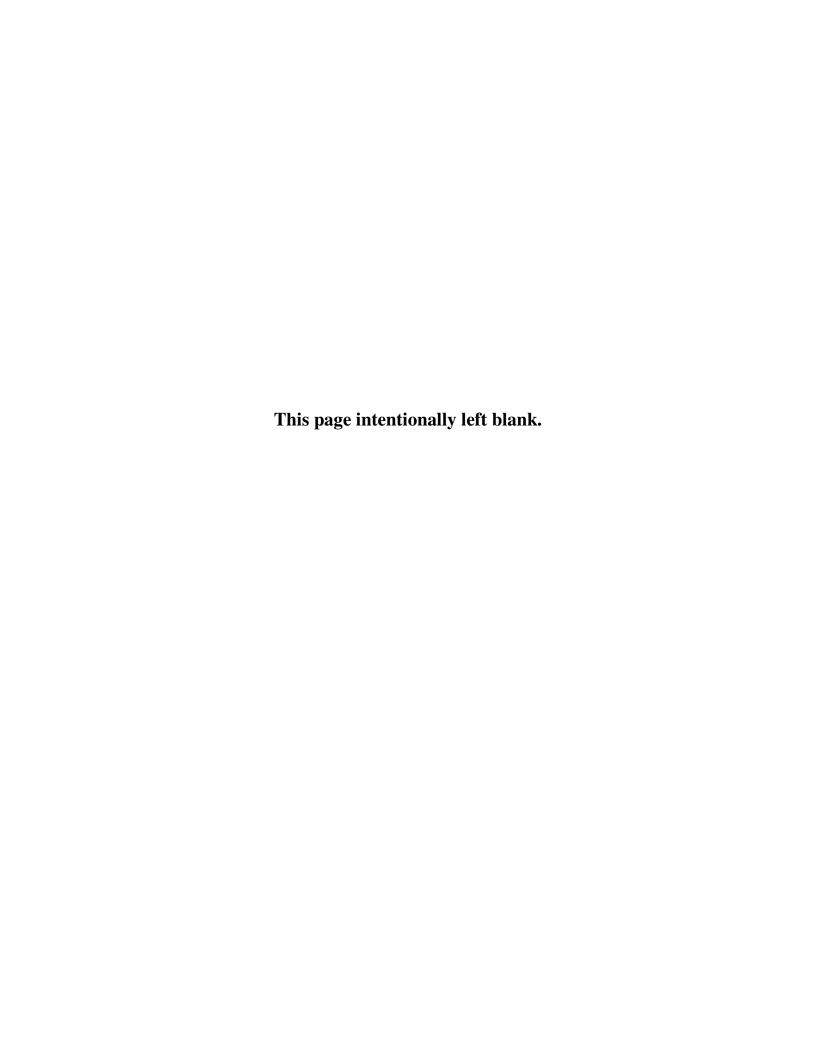

E. Retirement Heath Savings Plan

On August 1, 2005, the Huron-Clinton Metropolitan Authority Board of Commissioners established the Huron-Clinton Retirement Health Savings Plan (the "Savings Plan") by resolution. The Savings Plan is a defined contribution plan administered by the International City/County Management Association - Retirement Corporation ("ICMA-RC"). The legal basis for the Savings Plan comes from several private letter rulings obtained by ICMA-RC from the Internal Revenue Service and Treasury regulation 301.7701-1[a][3]. Participation is mandatory for all employees hired after January 1, 2009, as well as collective bargaining exempt employees, as defined in the Plan Adoption Agreement. Employees must be over the age of 21 to participate in the Savings Plan.

Employees hired after January 1, 2009, who are covered under a collective bargaining agreement with the Authority, must contribute 1% of their base wage. The Authority contributes a 1% match on behalf of these employees. Employees who are not covered under a collective bargaining agreement with the Authority must contribute 1.5% of their base wage. There is no matching contribution provided on behalf of these employees. On December 31, 2010, there were 10 members of the Savings Plan. Total contributions for 2010 by participants and the Authority amounted to \$11,274 and \$2,070, respectively.

⁽a) Property value information represents the combined totals of Livingston, Macomb, Oakland, Washtenaw, and Wayne counties. These counties are the member counties of the Metropark district.

⁽b) The State of Michigan passed a Property Tax Reform measure in 1994 which changed the basis of property taxes. Authority tax millage rates were applied to "Taxable Values" rather than "State Equalized Values" effective with the Authority's tax year 1996. Includes Single Business Tax inventory value of \$2,497,402,508 for years 2001 through 2005; this amount was eliminated by State legislation for 2006 and after.

⁽c) Includes Single Business Tax inventory value of \$2,497,402,508 for years 2001 through 2005; this amount was eliminated by State legislation for 2006 and after.

⁽d) Total estimated market value is based on two times State Equalized Value figures.

⁽a) Property tax levies are not collected directly by Huron-Clinton Metropolitan Authority. Authority property tax levies are collected by local communities within the five county park district and are forwarded to each County Treasurer who distributes the Authority's tax levy to the park district. Accordingly, individual taxpayer records are not maintained by Huron-Clinton Metropolitan Authority.

⁽b) Includes Single Business Tax inventory value of \$2,497,402,508 for years 2001 through 2005; this amount was eliminated by State legislation for 2006 and after.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

May 4, 2011

To the Board of Commissioners Huron-Clinton Metropolitan Authority Brighton, Michigan

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of *Huron-Clinton Metropolitan* Authority (the "Authority"), as of and for the year ended December 31, 2010, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated [Date]. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Board of Commissioners, and, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Rehmann Lohson
