NATURE TRAILS

MAIN TRAIL • $\frac{3}{4}$ MILE

This trail takes you through a grove of cottonwoods, across a small meadow and along the South Marsh. Great for warblers in spring and fall, nesting swans and geese and beautiful flowers in the spring and summer.

MARSH OBSERVATION DECK

The raised walkway and deck take you into the South Marsh. Experience great views of the wetland life.

MEADOW LOOP • $\frac{1}{5}$ MILE

This trail meanders through a small meadow where you can observe field plants, flowers and many types of birds. This is a good place to see insects such as crickets, grasshoppers, butterflies and dragonflies.

MARSH ROAD SIDE TRAIL • $\frac{1}{2}$ MILE

This side trail will lead you further into the marsh area to explore the wetland wildlife.
