PARK ROAD

HURON RIVER

Walnut Grove Campground entrance signs.

Campground entrance drive. Pedestrian crossing signs for the Iron Belle Trail to be replaced.

Pedestrian crossing signs for the Iron Belle Trail to be replaced.

Existing potable water station and sanitary dump station.

Existing sanitary dump station and potable water station.

Existing campsites. Culverts to be added at existing sites 1-7. Culverts for existing swales are proposed at 13 sites total.

Sites 1-7 will be lengthened for longer RVs. Seven sites will be updated to universal design standards with large concrete pads. Site amenities at accessible sites will be placed on concrete.

Universal accessible picnic tables with seating options on both ends will be purchased to replace the existing tables. Three new fire rings will be needed for the 3 additional campsites.

9

The Walnut Grove Campground provides camping opportunities for those paddling the Huron River National Water Trail.

10

Existing launch / take-out area with water trail signs.

11

Existing drinking fountain and concrete pad to be removed. Two new universal accessible drinking fountains / water bottle filling stations are proposed in new locations at restroom buildings.

12

Existing shelter to remain. Six universal picnic tables are proposed along with a large universal accessible swivel grill on new concrete pavement. Electrical to be added at the shelter.

Existing dumpster to be moved adjacent to an accessible route. Parking lot striping and signs to be modified.

Existing van accessible spaces to remain.

Existing tent camping sites to remain. Tables to be replaced with a universal accessible style throughout the campground. Water and electric hookups will be added at all 30 sites.

A 10 minute parking area will be signed and striped near the accessible restroom building.

17

A universal accessible drinking fountain / water bottle filling station to be installed on the side of the restroom building.

18

An accessible firewood storage unit, bench, and bike hoops shall be installed near the Walnut Grove restroom building.

19

A signed and striped cross walk is proposed at the end of this walk. A new concrete walk will extend beyond to the playground and 2 universal accessible picnic units.

20

Existing drinking fountain to be removed. A new universal accessible drinking fountain / water bottle filling station to be mounted on the restroom building beyond.

21

A new concrete walk is proposed to the existing playground and to 2 universal accessible picnic units with a table and grill.

22

A concrete ramp into the mulched surface will be added. Two belt swings will be replaced with 2 ADA harness swings.

23

Existing camp sites near the playground to remain. New tables are proposed along with water and electric hookups.

24

Pavement will be removed at the existing visitor parking lot. Eleven spaces to remain. Two of the spaces will be signed and striped for van accessible parking. Entire lot to be restriped.

25

The fire pits at the removed RV camp sites will be relocated to new campsites. Thirteen RV sites are proposed.

26

Three RV camp sites will be removed under utility line. Large sections of pavement will be removed from the adjacent lot.

27

The existing drinking fountain and concrete pad near the Tulip Tree picnic area will be removed. A new fountain / water bottle filling station will be attached to the restroom building beyond.

28

Existing gate separating the Tulip Tree picnic area and the Walnut Grove Campground. The drive aisle for the parking lot beyond will remain to help RVs turn around.
