WOLCOTT MILL METROPARK MASTER PLAN

5 Year Update to 2016 - 2026

2021 **5 Year Community** Stony Creek **Recreation Plan** Kensingtor 2022 Lower Hudson Mills Lake St. Park Master Plans . Clair Wolcott Oakwoods 2023

S Planning Process

The five-year update is an opportunity for each of the 13 Metroparks to review their master plan and make sure it is still relevant. This review includes 1) major changes to facilities, infrastructure and programming in the park; 2) updated needs and opportunities; 3) completed action items; and 4) any new actions necessary to implement the goals and policies for the park. One of the most important components is the public input collected through meetings, questionnaires, and online comments, all of which influence plan recommendations. A master plan steering committee was formed to include park employees with exceptional knowledge of Wolcott Mill and surrounding community who, along with the experienced Metroparks administrative department heads provided their professional opinions.

The Planning and Development Department also included updates to the demographic and spatial data to inform recommendations. Demographic data looks at the density, age, income, language, and other factors of the regional population. Spatial data, usually analyzed through Geographic Information System (GIS) software, looks at the physical location of the parks in relation to other recreation opportunities, transportation facilities, population centers, important natural resources, and more. Finally, the planning staff conducted a review of park conditions to identify areas needing improvement and areas experiencing success.

The master plans are intended to be living documents, modified as needed to reflect changing conditions in the parks with this review every five years. However, they focus on park developments over ten years, and will be updated through a more comprehensive planning process at the end of the planning horizon.

2024

Full 10-Year Updates Begin in 2026

OPPORTUNITIES

The Steering Committee met on 06/14/2022

REVENUE

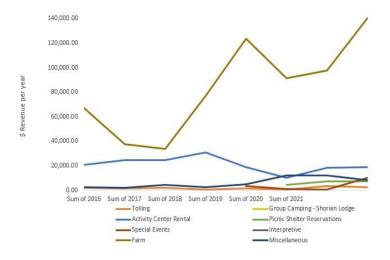

Revenue Sources

2021 Operations Revenue

Revenue Source	2021 Total
Tolling	34,124.00
Group Camping- Shorian Lodge	8,450.00
Activity Center Rental	13,925.00
Picnic Shelter Reservations	2,169.00
Special Events	320.00
Interpretive	4,471.00
Farm	128,743.00
Miscellaneous	2,347.00
Total:	175,565.00

REVENUE TRENDS—2016-2021

*2021 Operations Revenue was irregular due to the COVID pandemic.

NEEDS

Address falling tax revenue

Direct resources to higher revenue, lower expenditure areas

OPPORTUNITIES

The Metroparks 2021 General Fund revenue equaled \$59,729,968. Wolcott Mill's 2021 operations revenue was \$194,550, comprising about 1% of all Metroparks revenue.

Wolcott Mill's budgeted 2020 operations revenues are \$175,565, while estimated 2020 operations expenses are \$1,552,922. Property tax and other revenue will subsidize 88.7% (\$1,377,357) of the Wolcott Mill operating budget.

Unlike the other Metroparks, Wolcott Mill has entrances without tollbooths, meaning that tolling revenue consists mostly of annual pass sales. HCMA is in the process of installing tollbooths where they a re missing in order to address this issue, so future data will likely show a spike in revenue and visitor numbers.

Y Visitors

Wolcott Mill Metropark is a regional park and can draw from the 2,888,800 people that live within a 30-mile radius (approximately a 45-minute drive) of the park. Certain events and activities may draw visitors from greater distances.

Consolidation of statistical information is needed to better assess vehicle entries, park users, event attendance, event participants and activity participation within the park. This information will help with marketing of events, activities and future analysis of the park.

Popular Wolcott Mill Farm Center

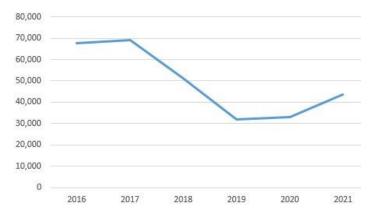

NEEDS

Add tollbooths where needed

Collect more robust visitor data

OPPORTUNITIES

Wolcott Mill Metropark 30-Mile radius

Programs & Events ******

NEEDS

Increase revenue and visitation

Draw visitors through programs that highlight unique historic and agricultural themes

OPPORTUNITIES

2022 Integrated Marketing Plan

Educational and public programs looked much different than "average" in 2020. Staff adjusted to ever-changing situations of the pandemic to continue serving visitors on multiple platforms using virtual and hybrid programs, as well as small-group, in person, outdoor programs. These new practices will carry over into 2022 and staff will continue working collaboratively to provide exciting new experiences for the Lower Huron communities in ways that are safe and engaging.

2020-2022 Recreation Programming Plan

In 2022, the Metroparks amended the 2020-2022 Community Recreation Plan to include a Recreation Programming Plan.

An important element of programming is accessibility and ensuring all programs, events, and services are compliant with the American Disability Act (ADA) requirements.

To achieve this, the Metroparks has begun self-evaluation of all programming and services offered by each department. Each program was categorized into groups of similar activities (e.g. programs, events, activities) and will then be analyzed each activity in terms of vision, hearing, and mobility barriers that may exist.

COMMUNITY INFLUENCES

Population III

The population in Ray Township, the community surrounding Wolcott Mill Metropark, is distinct from the rest of the region and the county and faces some unique challenges.

NEEDS

Meet the needs of a changing regional population

Develop an accessible, welcoming park with something for everyone

OPPORTUNITIES

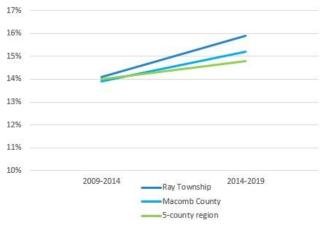

The 5-county region shows a very low and falling number of households without access to an automobile. However, the percentage of such households is rising throughout the Ray Township and in Macomb County.

The Metroparks were created at the time of the auto boom, when it was assumed that every family would have a car to take out to the countryside on the weekends. Since habits and lifestyles are changing, the Metroparks must look into innovative ways to provide access to the parks for all.

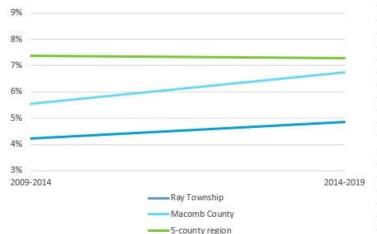

As shown in the map below, Wolcott Mill is located in the more rural, low-density area of southeast Michigan, with an average of less than one thousand residents per square mile. This creates unique land use and park access challenges and opportunities.

Both the region at large and the area surrounding Wolcott Mill have been aging rapidly, following a nationwide trend. Ray Township has seen a very steep rise in percentage of older adults, overtaking Macomb County as a whole and greatly surpassing the region.

Older adults have distinct needs, often requiring accommodations for mobility and accessibility of park features such as trails and buildings. This is important to keep in mind when planning the future of a park serving an older population.

CHANGE IN PERCENT OF POPULATION OVER 65 YEARS, FROM 2009-2014 through 2014-2019 (Source: US Census American Community Survey)

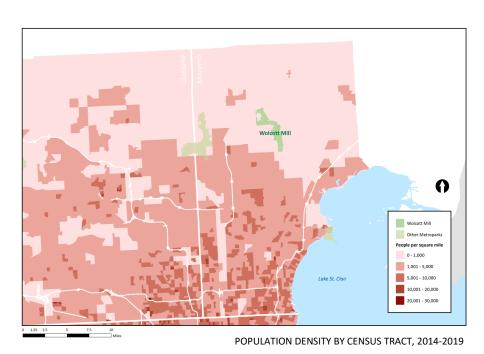

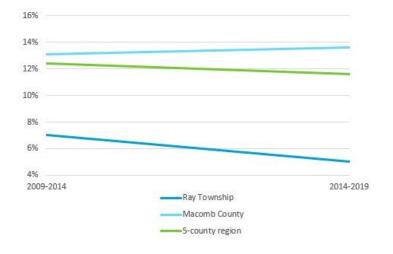

CHANGE IN PERCENT OF HOUSEHOLDS WITH NO CARS AVAILABLE, 2009-2014 through 2014-2019 (Source: US Census American Community Survey)

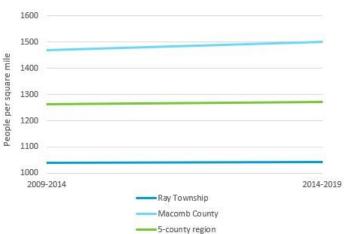

Community Influences

Macomb County has seen a slight increase in population density, and Ray Township has seen almost no change in average population density. If development increases in the area surrounding Wolcott Mill, the park will have to adapt to serve a changing population.

Although most households in the area still speak English as their first language, in Macomb County there is a growing number of households speak other languages at home. Ray Township has a much lower percentage of these households and the percentage has in fact dropped over the past ten years. Still, due to the overall rise in linguistic diversity the Metroparks are working towards more universal signage design, with a focus on easily understandable symbols.

CHANGE IN PERCENT OF HOUSEHOLDS SPEAKING LANGAGE BESIDES ENGLISH AT HOME, 2009-2014 through 2014-2019 (Source: US Census American Community Survey)

CHANGE IN AVERAGE POPULATION DENSITY, 2009-2014 through 2014-2019(Source: US Census American Community Survey)

NEEDS

Projects & Initiatives

Improve park interaction with community

Invest in good working relationships with surrounding government agencies

OPPORTUNITIES

Ray Township

- Growing residential uses
- Continued preservation of farmland
- Greenway and trail connections
- Acquiring land for community parks

Macomb County

- Enhancing role in recreation through shared services and collective efforts
- Goal is to establish dedicated parks and recreation department
- Continuing to invest in Macomb Orchard and Paint Creek trails

Clinton River Watershed Council

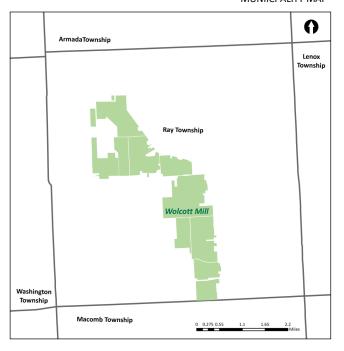

WaterTowns green infrastructure improvement suggestions

Understanding the goals and plans of the municipality containing Wolcott Mill is essential for a collaborative, comprehensive planning process. To begin, planning staff researched the published master plan of Ray Township, which entirely contains the park. This provided a basic idea of the planned direction of the community, especially regarding land use, development, and recreation.

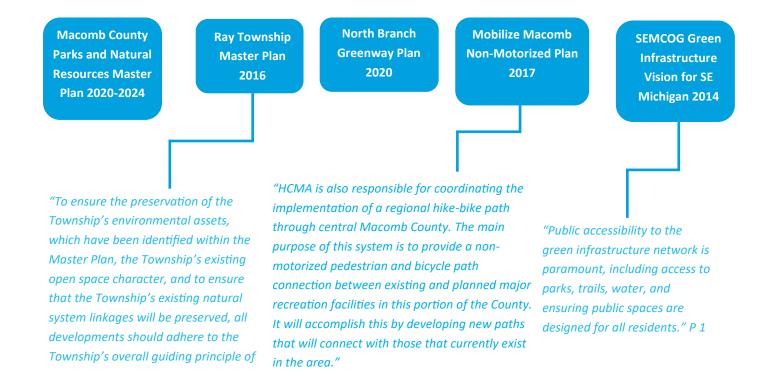

Ray Township still contains a large amount of vacant and agricultural land, along with growing residential uses. The master plan focuses on an expected transition to more of the residential dominance found in neighboring municipalities, and how to minimize conflicts and protect valued resources. It identifies farmland as particularly valuable, for its addition to the rural character of the township, its contribution to the local economy, and its need for relatively less intensive municipal services.

MUNIICPALITY MAP

Relevant Planning Documents

Since the development and land use decisions of neighboring communities and other governmental agencies directly impact the park, these other plans were reviewed and taken into account when creating this document. The opinions and ideas expressed by residents and leaders in these communities give Wolcott Mill a wider context and in many cases underscore the importance of the park's resources to citizens.

Macomb County does not have a Parks and Recreation Commission and maintains only a few county parks. Therefore, Wolcott Mill may play a larger role than other Metroparks in meeting everyday, neighborhood-level recreation needs.

Wolcott Mill is part of a broader system of recreation and green space that includes other Metroparks as well as local, county, and state parks and greenways. Therefore, recreation and green infrastructure plans were also considered in creating the Wolcott Mill Master Plan. Many communities are currently advancing their non-motorized networks, seeking grant funding to create greenways and paths, and cooperating to provide linked green and recreation spaces to their constituents.

The Macomb Orchard Trail is a valuable resource in the county, a paved path for bicycling and walking stretching 24 miles from Shelby Township to Richmond. HCMA has a seat on the Trail Commission, and opportunities for connecting to Wolcott Mill may be explored in the future.

PUBLIC INPUT

2022 Community Needs and Assessment

ETC Institute administered a needs assessment survey for Huron-Clinton Metroparks (HCMA) during the Spring of 2022. The survey was administered as part of Metroparks' efforts to establish and priorities improvements to the parks system, which included 13 parks covering more than 25,000 acres in Wayne, Oakland, Macomb, Livingston and Washtenaw counties. The survey and its results will guide HCMA in taking a resident-driven approach to making decisions that will enrich the future of the community and positively affect the lives of all residents in southeast Michigan.

ETC Institute mailed a survey packet to a random sample of households in Livingston County, Macomb County, Oakland County, Washtenaw County, Wayne County (outside the City of Detroit), and the City of Detroit.

Location	Completed Surveys	% Precision
Livingston County	479	±4.5%
Macomb County	511	±4.3%
Oakland County	583	±4.1%
Washtenaw County	514	±4.3%
Wayne County (Outside Detroit)	407	±4.9%
City of Detroit	405	±4.9%
Total	2,899	±1.8%

The table above shows the number of completed surveys collected in each of the six sampling areas. The table also shows the margin of error at the 95% level of confidence for each area.

The results presented in this report have been weighted to represent each sampling area's share of the population of the Huron-Clinton Metroparks service area. The weighted results give more weight to the responses from the larger sampling areas, including Macomb County, Oakland County, Wayne County (outside Detroit), and the City of Detroit, and similarly gives less weight to the responses of the smaller sampling areas, including Livingston County and Washtenaw County

Priorities for Parks & Recreation Facility Investments in the Huron-Clinton Metroparks Service Area

The Priority Investment Rating (PIR) was developed by ETC Institute to provide organizations with an objective tool for evaluating the priority that should be placed on Parks and Recreation investments. The Priority Investment Rating (PIR) equally weighs:

Priority

- the importance that households place on each facility/ amenity/ activity/program
- how many households have unmet needs for the facility/

Facility	Investment Rating (PIR)
Trails-paved, multi-use (walking, biking)	189.2
Beaches	174.7
Natural areas	145.7
Trails-unpaved, nature trails	139.7
Trails-unpaved, hiking	137.2
Nature centers	114.2
Canoe/kayak launch sites	110.2
Outdoor swimming pools	107.9

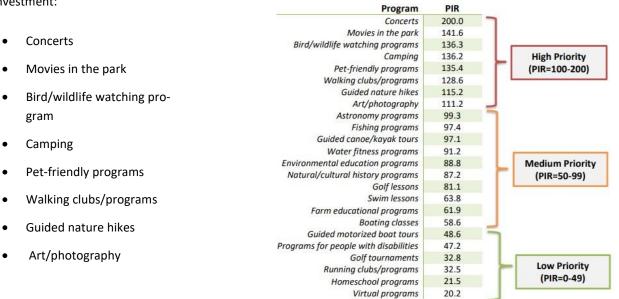

Macomb County

The table below shows the Priority Investment Ratings (PIR) for parks and recreation facilities, based on the PIR analysis conducted using the data from Macomb County households. The following nine facilities were rated as high priorities for investment:

The table below shows the Priority Investment Ratings (PIR) for parks and recreation programs, based on the PIR analysis conducted using the data from Macomb County households. The following 16 programs were rated as high priorities for investment:

Action Plan

Needs & Opportunities

Based on the assessment of park conditions, demographic research and spatial analysis, public input, and staff input, the needs and opportunities listed throughout this document were developed. 5-year updates are in blue text

Needs

- Better highlight and advertise special character of park
- Define and protect areas with important biodiversity features
- Preserve features of historic structures
- Increased connectivity between structures
- Increased space for interpretation and interactive learning, as well as events.
- Work with county to address park boundary issues
- Replace outdated, confusing, inconsistent signs
- Update trail system to include informal paths
- · Pursue improvements to park accessibility
- Address falling tax revenue
- Add tollbooths where needed
- Increase revenue and visitation
- Meet the needs of a changing regional population
- Improve park interaction with community
- Incorporate variety of opinions and user groups into master plan

Opportunities

- Expansion of available events and activities at park
- Create a resilient network of biodiverse areas in the park
- Draw new visitors with programming/education based on history of park
- Unification of structures will create accessible network throughout various park areas.
- Work towards a park with unique, well-maintained facilities that meet all visitors' needs
- Create good working relationship with neighbors and partner organizations
- Create consistent, convenient wayfinding system to give visitors confidence
- Draw new visitors to the park with a high-quality trail network
- Ensure that users of all abilities feel empowered to take full advantage of the park
- Direct resources to higher revenue, lower expenditure areas
- Collect more robust visitor data
- Draw visitors through programs that highlight unique historic and agricultural themes
- Develop an accessible, welcoming park with something for everyone
- Invest in good working relationships with surrounding government agencies
- Create vibrant park through robust, transparent public outreach

With these in mind, the following list of projects, plans, and studies was developed. Major and minor projects have been identified as priorities and assigned a timeline, and the accompanying studies have been listed. These pages should serve as a blueprint for the future of the park over the next ten years.

Large Facilities

Description	Department Lead	Other Departments	Other Partners	Cost Estimate	Short-Term (2022-2024)	Mid-Term (2024-2025)	Long-Term (2026+)	Status
Wolcott Mill Trail connector to Macomb Orchard Trail	Engineering	Planning, NR	Contractors,	TBD			x	Not started
Farm Center Redevelopment plan	Engineering	Planning	Contractors	TBD				Complete
Historic Center Redevelopment plan	Engineering	Planning, Interpretive	Contractors	TBD		X		Not started
Wagon Route to Park Center Mill	Engineering	Planning, NR	Contractors	\$600,000	X			Completed Design

Infrastructure / Small Facilities

Description	Department Lead	Other Departments	Other Partners	Cost Estimate	Short-Term (2022-2024)	Mid-Term (2024-2025)	Long-Term (2026+)	Status
Pavement projects (list developed annually, as needed)	Engineering	Planning, Operations	Contractors	TBD	х	х	х	Ongoing
Accessibility improvements, including interiors and walkways - parkwide	Engineering	Planning, Operations	Contractors	TBD	x	x	X	Ongoing
Replace Farm Center playground structures	Planning	Engineering, Operations	Contractors	\$85,000				Complete
Regional trail development plan	Engineering	Planning	Contractors	TBD	х	х	x	Ongoing

Natural Resources

Wayfinding/directional signage updates - parkwide (including trails)	Planning	Maintenance, Operations		\$15,000.00				Complete
Install interpretive and wayfinding signage at Historic Center	Interpretive	Planning, Operations		TBD	x			Partially Complete
New Branding	Marketing, Interpretive	Planning, Operations		TBD	х	х	х	Ongoing

Area Plans, Studies, & Initiatives

After identifying the need for changes or improvements based on user feedback and staff research, in-depth evaluation and planning must be carried out to gain a detailed understanding of problems and opportunities and determine the best strategies based on existing conditions and resources. Sometimes a process to formally monitor facility usage and gauge popularity is necessary. These studies often result in a scope of work, a work plan, and in some cases a site plan that give staff a roadmap for planned changes. Recommended studies are listed below:

Description	Deparment Lead	Other Departments	Other Partners	Cost Estimate	Short-Term (2022-2024)	Mid-Term (2024-2025)	Long-Term (2026+)	Status
Wolcott Mill Trail Connector to Macomb Orchard Trail study	Planning	NR, Engineering, Operations, Maintenance		staff time	x			Not Started
Farm Center Redevelopment Plan	Planning	Engineering, Operations, Maintenance		staff time				Complete
Trail development plan for facility connectivity	Planning	NR, Engineering, Operations, Maintenance	Ray Township, Macomb County	staff time	X			Not Started
Explore development of a main park entrance on Wolcott Road between the Historic Center and Camp Rotary	Planning	Engineering, Operations, Maintenance	Ray Township, Macomb County	staff time		X		Not Started
Historic Center Redevelopment Plan	Planning, Interpretive	Engineering, Operations, Maintenance		staff time		X		Not Started

Description	Department Lead	Other Departments	Other Partners	Cost Estimate	Short-Term (2022-2024)	Mid-Term (2024-2025)	Long-Term (2026+)	Status
